

TITLE OF REPORT: TRANSPORT AND SALE OF MIXED DRY RECYCLING

REPORT OF THE HEAD OF LEISURE AND ENVIRONMENTAL SERVICES
EXECUTIVE MEMBER: COUNCILLOR PETER BURT

1. AMENDMENT TO REPORT

Officers request an amendment to 1.4 of the report. The report was drafted during the contract evaluation and as a consequence of a delay due to clarifications of the bid, the standstill period has not yet completed. Therefore the paragraph should read:

- 1.4 For all OJEU procurements, public bodies must wait for 10 clear days to pass from communication of the scores to formal award of contract. This 10 day period is called the standstill period. Communication of the scores has been sent and since then the standstill process has commenced.

2. REVISED RECOMMENDATIONS

As a consequence of the standstill period not yet completing officers request the following changes to the recommendations:

Cabinet are requested:-

- 2.1 That, subject to the completion of the standstill period without formal challenge and receipt of satisfactory references, the contract for the provision of the Transport and Sale of Mixed Recycling from February 2017 to May 2018 be awarded to the winning contractor.
- 2.2 That, if the contract is unable to be awarded, the Head of Leisure and Environmental Services, in consultation with the Executive Member for Waste Management, Recycling and Environment, be delegated authority to enter into an interim solution.
