## Notes / Assumptions

- 1 Base adjustments to reflect previously agreed changes to the budget and the ongoing impact of budget proposals
- 2 The Lump Sum contribution in 2013/14 of £2.4million reduced the annual lump sum contribution to £565k per annum until 2017/18. The contribution rate on pay to fund the cost of future accrued benefits is to be maintained at 15.5%.
- 3 In April 2016 the government has announced the introduction of the Single Tier Pension - estimated annual cost of £100k.
- 4 Contractual increase (increments) and 1% pay award in 2016/17 and each year thereafter. There was a 2.2% pay award to cover 2014/15 and 2015/16.
- 5 Inflation based on relevant indices as per contracted arrangements. November 2014 RPI was 2% and national forecast of 3.3% for 2016/17 and 3.6% for 2017/18 and 3.8% for 2018/19 and 2019/20.
- 6 Apprenticeship scheme in the base budget from 2013/14 and 2014/15 only with a new investment bid for 2015/16 and onwards.
- 7 An investment allowance of £150k per annum over the life of the New Homes Bonus.
- 8 The base rate is anticipated to remain at the low 0.5%.
- 9 Specific grants and contributions largely consist of SLA and Agency agreements with other bodies. Assume contributions will increase in line with inflation. Reduction in the HB Admin Grant in 2015/16.
- 10 2015/16 reflects provisional settlement announcement in December 2014. The Spending Round 2013 suggested further reductions in 2016/17 and 2017/18 and further announcements suggest an extended period of austerity to 2020.
- 11 2015/16 reflects provisional settlement announcement in December 2014. For 2016/17 onwards Increase in baseline retained business rates assumed by the scheme in line with inflation forecast.
- 12 New Homes Bonus based on estimate of new properties built between October and October of the previous year and a 80:20 split between the District and County. The assumption for 2016/17 and onwards of 350 new homes per year will need to be updated as data published. The Government has announced a review of the scheme in spring 2014. A total of £150k per annum of the bonus is being used to provide an allowance for new investment over the life of the new homes bonus. An apprentice scheme is being funded for
- 13 Includes the settlement adjustment for the 2% cap on the Business Rate multiplier and returned NHB funding.
- 14 The NHDC share of the Collection Fund deficit is estimated to be £1.1million at the 31 March 2015. This will be charged to the general fund in 2015/16.
- 15 District precept is the band D tax rate multiplied by the taxbase. The taxbase incorporates the Council Tax Reduction Scheme. An overspend on the scheme will create a deficit on the Collection Fund.
- 16 Estimated tax base increase of 0.83% for 2015/16. Assumed tax base increase of 0.5% per annum for each year thereafter and collection rate of 99%
- 17 Minimum general fund reserve balance includes an allowance for known risks and a 5% of net expenditure for unknown risks.
- 18 Special Reserve maintained to fund invest to save projects and to support unavoidable fluctuations in contract prices as contracts are renewed.
