

**Assumes 1.9% increase in Council Tax rates each year**

-827,700

**Notes / Assumptions**

- 1 Base adjustments to reflect previously agreed changes to the budget and the ongoing impact of budget proposals
- 2 The Lump Sum contribution in 2013/14 of £2.4million reduced the annual lump sum contribution to £565k per annum until 2017/18. The contribution rate on pay to fund the cost of future accrued benefits is to be maintained at 15.5%.
- 3 The government announced the introduction of the Single Tier Pension from April 2016.
- 4 Contractual increase (increments) and 1% pay award in 2016/17 and each year thereafter.
- 5 Inflation based on relevant indices as per contracted arrangements. November 2015 RPI was 1.1% and the OBR forecast of 1.1% for 2016/17, 2.3% for 2017/18, 3.0% for 2018/19, 3.1% for 2019/20 and 2020/21.
- 6 Apprenticeship scheme in the base budget from 2013/14 and 2014/15 only with a new investment bid for 2015/16 and onwards.
- 7 An investment allowance of £150k per annum over the life of the New Homes Bonus.
- 8 The base rate is anticipated to remain at the low 0.5%.
- 9 Specific grants and contributions largely consist of SLA and Agency agreements with other bodies. Assume contributions will increase in line with inflation. Reduction in the HB Admin Grant in 2015/16.
- 10 2016/17 reflects provisional settlement announcement in December 2015 and the proposed 4 year funding arrangement.
- 11 2016/17 reflects provisional settlement announcement in December 2015. For 2017/18 onwards, the increase in baseline retained business rates assumed by the scheme in line with inflation forecast.
- 12 New Homes Bonus based on estimate of new properties built between October and October of the previous year and a 80:20 split between the District and County and assumes an average award of £1,235 per new property (based on 16/17 allocation).  
Estimates provided by Planning Officers for 17/18 are based on the Local Plan not materialising but will need to be updated as data is published. A total of £150k per annum of the bonus is being used to provide an allowance for new investment over the life of the new homes bonus.
- 13 Includes the settlement adjustment for the 2% cap on the Business Rate multiplier and returned NHB funding.
- 14 The NHDC share of the Collection Fund deficit was £1.2million at 31 March 2015. This will be charged to the general fund in 2015/16.
- 15 District precept is the band D tax rate multiplied by the taxbase. The taxbase incorporates the Council Tax Reduction Scheme. An overspend on the scheme will create a deficit on the Collection Fund.
- 16 Estimated tax base increase of 0.36% for 2016/17. Assumed tax base increase of 0.5% per annum for each year thereafter and collection rate of 99%
- 17 Minimum general fund reserve balance includes an allowance for known risks and a 5% of net expenditure for unknown risks.
- 18 Special Reserve maintained to fund invest to save projects and to support unavoidable fluctuations in contract prices as contracts are renewed.
