Notes

'Session' is equivalent to an individual ticket purchase at a machine.

A session purchase consists of the NHDC parking tariff + convenience fee of 20p (which RingGo retains) + cost of call to network provider

Payment by phone can be made at anytime and does not require the purchaser to physically be in the car park

Payment by phone can be used to 'top up' previous parking whether paid for by phone or ticket from machine

Car parks in italics offer *long stay*
