

## 2015/16 Quarter 2 PI Data

### Performance Indicators with a Monthly or Quarterly Reporting Frequency

In 2015/16, NHDC will report 22 corporate performance indicators with a monthly or quarterly reporting frequency.

This report presents the 22 performance indicators and displays the latest month or quarter that officers have updated and activated on Covalent.

Generally, performance indicator data is cumulative and represents performance between 1 April 2015 and the end of the latest month or quarter. The report will indicate if any performance indicator data is not cumulative.

LI032a	Number of allowed planning appeal decisions	Q2 2015/16	2	Not Applicable		 Q2 14/15 4	2 out of 7 appeals allowed. The two appeals allowed relate to applications submitted for householder extensions. The Inspectors' decisions in both cases were subjective and did not give rise to any policy issues or a need to give further consideration as to how applications of this nature are determined. It should be borne in mind, particularly as the Council deals with approximately 900 applications of this nature in a year that both these appeals and the outcomes are minimal when compared to the overall number of proposals determined and the limited number of appeals.
LI034	Percentage of Housing & Public Protection Service programmed inspections completed (cumulative performance)	Q2 2015/16	97.5%	94%		 Q2 14/15 84.8%	The Housing & Public Protection Service completed 308 of the 316 inspections scheduled. Inspections not completed: <ul style="list-style-type: none"> <li>- 1 food safety inspection</li> <li>- 4 houses in multiple occupation inspections</li> <li>- 2 industrial installations inspections</li> <li>- 1 Licensing Act 2003 inspection</li> </ul>

LI036	Number of households who had potential homelessness prevented	Q2 2015/16	81	130		 Q2 14/15 145	<p>The number of households who felt they were threatened with homelessness who did not become homeless through intervention by the Council.</p> <p>Of the 36 prevention cases in Quarter 1, four households had their homelessness prevented via offers of social housing.</p> <p>Of the 45 prevention cases in Quarter 2, seven households were offered social housing.</p> <p>The biggest tool for the prevention of homelessness is the private rented sector. However, access to this type of accommodation has become more difficult over recent times as landlords have become less willing to offer their properties to the Council due to the perceived level of risk associated with its placements. Steps are underway to try to improve access to this type of accommodation.</p>

LI048	Kg of residual waste from households per household	September 2015	167kg	154kg		 Sept 14 157kg	Residual waste tonnages are higher than anticipated, in part due to national trends likely to be associated with improvements in the economic climate. In addition, small levels of contamination (currently calculated at 0.5%) are being accounted for, which were not recorded in previous years. Officers anticipate further reductions in recycling rates for Q3 2015/16, when the impact of contamination has been fully determined and accounted for.
LI049	Percentage of waste from households recycled or composted	September 2015	62.43%	63%		 Sept 14 64.81%	
NI191	Kg residual waste per household	September 2015	184kg	171kg		 Sept 14 175kg	
NI192	Percentage of household waste sent for reuse, recycling and composting	September 2015	60.24%	61%		 Sept 14 62.33%	

For the new waste performance indicators LI048 and LI049, the definition of 'waste from households' is taken from the Defra publication "Waste from households" recycling calculation' dated July 2014. This definition is different to the one for 'household waste' that is used for NI191 and NI192, as it removes street arisings and domestic clinical tonnages. In addition, the new performance indicators only take into account 'reuse' from Cookstown Textile Recycling.

The corporate performance indicator listed below did not have 2014/15 data available for the year-end performance report, which was presented to the Overview & Scrutiny Committee on 9 June 2015. The following table provides an update for the indicator. In March 2015, Cabinet agreed that 2014/15 would be the last year that data would be reported for this indicator.
