NORTH HERTFORDSHIRE DISTRICT COUNCIL

2015/16 Quarter 3 PI Data

Performance Indicators with a Monthly or Quarterly Reporting Frequency

In 2015/16, NHDC will report 22 corporate performance indicators with a monthly or quarterly reporting frequency.

This report presents the 22 performance indicators and displays the latest month or quarter that officers have updated and activated on Covalent. Generally, performance indicator data is cumulative and represents performance between 1 April 2015 and the end of the latest month or quarter. The report will indicate if any performance indicator data is not cumulative.

Key for the Report

Status								
Data value has met or exceeded the target figure								
Data value has not achieved the target figure but it is within the agreed tolerance range								
Data value has not achieved the target figure and it is outside the agreed tolerance range								
Data value is for information only and a traffic light status is not applicable

5		Working days lost due to sickness absence per FTE employee	December 2015	2.94	Not Applicable		Dec 14 4.15	839.80 FTE sickness days 286.03 average FTEs		

Row No.	PI Code	Title	Last Update	Data Value	Target	Status	Direction of Travel	Commentary
6	BV 12a	Working days lost due to short- term sickness absence per FTE employee	December 2015	1.94	2.40		Dec 14 1.94	555.77 FTE short-term sickness days 286.03 average FTEs Short-term absence is at the same rate as December 2014, which was the lowest since Covalent records began. Long-term absence has been much lower this year. We are on target to finish under five days for combined short-term and long-term absence.
7	BV 12b	Working days lost due to long- term sickness absence per FTE employee	December 2015	0.99	Not Applicable		Dec 14 2.21	284.03 FTE long-term sickness days 286.03 average FTEs 2015/16 is set to return a very low rate of long-term sickness absence. Serious illness is inevitable from time to time, so there is some good fortune to getting less absence but case management also plays an important part including supporting people. 0.99 is the lowest figure at this time of year since 2008 when Covalent records began.

8	LI 034	Percentage of Housing & Public Protection Service programmed inspections completed (cumulative performance)	Q3 2015/16	95.9%	94%		Q3 14/15 96.4%	The Housing & Public Protection Service completed 465 of the 485 inspections scheduled. Inspections not completed: - 4 houses in multiple occupation inspections - 1 industrial installations inspection - 1 animal establishments inspection - 2 Gambling Act 2005 inspections - 11 Licensing Act 2003 inspections - 1 sex establishments inspection There was a slight fall in performance in Q3 2015/16 due to staff sickness, although the outcome is still within target.

Row No.	PI Code	Title	Last Update	Data Value	Target	Status	Direction of Travel	Commentary
9		Percentage of Housing & Public Protection Service programmed inspections completed (quarter- by-quarter performance)	Q3 2015/16	91.7%	Not Applicable	~	Q3 14/15 96.3%	The Housing & Public Protection Service completed 155 inspections out of the 169 inspections due. Performance has been slightly lower in Q3 2015/16 due to staff sickness.
10		Number of households accepted by the Council as homeless	Q3 2015/16	69	Not Applicable		Q3 14/15 65	Q1 2015/16 – 28 Q2 2015/16 – 20 Q3 2015/16 – 21 Main reasons for homelessness: - Parents, other relatives or friends no longer willing or able to accommodate – 24 - Non-violent breakdown of relationship with partner – 5 - Violent breakdown of relationship involving partner – 6 - Mortgage arrears (repossession or other loss of home) – 1 - Rent arrears on private sector dwellings – 1 - Loss of rented or tied accommodation due to termination of assured shorthold tenancy – 23 - Loss of rented or tied accommodation due to other reasons – 3 - Required to leave accommodation provided by Home Office as asylum support - 1 - Left other institution (not prison or hospital) or LA care - 2 - Other reason for loss of last settled home – 3
11		Number of households living in temporary accommodation	Q3 2015/16	68	Not Applicable		Q3 14/15 82	This was the total number of households accommodated under the relevant legislation by the Council, even though placement was with a third party, as at the end of December 2015. 4 out of the 68 households were placed in either Bed & Breakfast accommodation (3) or other nightly paid privately managed accommodation (1).

Row No.	PI Code	Title	Last Update	Data Value	Target	Status	Direction of Travel	Commentary	
12	LI 036	Number of households who had potential homelessness prevented	Q3 2015/16	116	195		Q3 14/15 192	The number of households who felt they were threatened with homelessness who did not become homeless through intervention by the Council. Of the 36 prevention cases in Quarter 1, four households had their homelessness prevented via offers of social housing. Of the 45 prevention cases in Quarter 2, seven households were offered social housing. Of the 35 prevention cases in Quarter 3, four households were offered social housing. The number of preventions has consistently fallen largely due to challenges accessing the private rented sector, which has been the most effective prevention tool over recent years. We are entirely dependent on outside services to provide alternative housing provision. Efforts are being made to improve access; however, the position is unlikely to change significantly in the short term.

Exe	cutive N	Member for Waste Management,	Recycling a	nd Environn	nent		'					
19	NI 191	Kg residual waste per household	December 2015	277kg	261kg		Dec 14 267kg					
20	NI 192	Percentage of household waste sent for reuse, recycling and composting	December 2015	59.03%	61%	_	Dec 14 60.20%					
21	LI 048	Kg of residual waste from households per household	December 2015	251kg	233kg	_	Dec 14 238kg					
22	LI 049	Percentage of waste from households recycled or composted	December 2015	61.33%	63%		Dec 14 62.82%					

For the new waste performance indicators LI048 and LI049, the definition of 'waste from households' is taken from the Defra publication "Waste from households" recycling calculation' dated July 2014. This definition is different to the one for 'household waste' that is used for NI191 and NI192, as it removes street arisings and domestic clinical tonnages. In addition, the new performance indicators only take into account 'reuse' from Cookstown Textile Recycling.
