

ROYSTON TOWN BAND APPLICATION

October 2013

Brief written evidence to show how the quotation gives best value for money

In the summer of 2013 we asked 3 local builders to quote for the work based on a set of structural drawings and a written brief of the work. We also met each builder and talked them through the proposed work.

2 of the builders responded with a quotation for the work –

PAS £38,437 plus VAT

REConstruction £32,434 plus VAT

One major source of funding fell through, and we felt that as a result both of these quotes were too high. We therefore negotiated a lower quote from REConstruction to get the building to a watertight stage. The band will then organise several work parties to complete the work.

This final revised quotation is £31,570 including VAT which we believe to be best value for money.
