| 3. | CHAIR'S ANNOUNCEMENTS <u>Climate Emergency</u> The Council has declared a climate emergency and is committed to achieving a target of zero carbon emissions by 2030 and helping local people and businesses to reduce their own carbon emissions. A Cabinet Panel on the Environment has been established to engage with local people on matters relating to the climate emergency and advise the council on how to achieve these climate change objectives. A Climate Change Implementation group of councillors and council officers meets regularly to produce plans and monitor progress. Actions taken or currently underway include switching to green energy, incentives for low emission taxis, expanding tree planting and working to cut food waste. In addition the council is a member of the Hertfordshire Climate Change and Sustainability Partnership, working with other councils across Hertfordshire to reduce the county's carbon emissions and climate impact. The Council's dedicated webpage on Climate Change includes details of the council's climate change strategy, the work of the Cabinet Panel on the Environment and a monthly briefing on progress. <u>Ecological Emergency</u> The Council has declared an ecological emergency and is committed to addressing the ecological emergency and nature recovery by identifying appropriate areas for habitat restoration and biodiversity net gain whilst ensuring that development limits impact on existing habitats in its process. | |

The Council has set out to do that by a) setting measurable targets and standards for biodiversity increase, in both species and quantities, seeking to increase community engagement, b) to work with our partners to establish a Local Nature Partnership for Hertfordshire and to develop Nature Recovery Networks and Nature Recovery Strategy for Hertfordshire and c) to investigate new approaches to nature recovery such as habitat banking that deliver biodiversity objectives and provide new investment opportunities.
