

NORTH HERTFORDSHIRE DISTRICT COUNCIL

Town and Country Planning Acts

DECISION NOTICE

Correspondence Address:

Mr Wilson
Vincent & Goring
Sterling Court,
Norton Road
Stevenage
Herts
SG1 2JY

Applicant:

Mr Bowler
Hertfordshire County Council

PARTICULARS OF DEVELOPMENT

Application: 17/02180/1

Proposal: Outline application (all matters reserved except access) for residential development up to 44 dwellings

Location: **Site of former Lannock Primary School, Whiteway, Letchworth Garden City, SG6 2PP**

Approved Plan Nos: 4715--201A; -202A; 9363092/01

PARTICULARS OF DECISION

In pursuance of its powers under the above Act and the associated Orders and Regulations, the Council hereby **GRANT PERMISSION** for the development proposed by you in your application received with sufficient particulars on 25/09/2017 subject to the following condition(s):

- 1 Application for approval of the reserved matters shall be made to the Local Planning Authority before the expiration of 3 years from the date of this permission, and the development hereby permitted shall be begun before the expiration of 2 years from the date of approval of the last of the reserved matters to be approved.

Reason: To comply with the provisions of Section 92 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2 Before the development hereby permitted is commenced, approval of the details of the siting, design and external appearance of the development, and the landscaping of the site (hereinafter called "the reserved matters") shall be obtained in writing from the Local Planning Authority.

Reason: To comply with the provisions of Article 3 of the Town and Country Planning (General Development Procedure) Order 1995 as amended.

- 3 (a) No development approved by this permission shall be commenced until a Site Investigation (Phase II environmental risk assessment) report has been submitted to and approved by the Local Planning Authority which includes:

- (i) A full identification of the location and concentration of all pollutants on this site and the presence of relevant receptors, and;
 - (ii) The results from the application of an appropriate risk assessment Methodology
- (b) No development approved by this permission (other than that necessary for the discharge of this condition) shall be commenced until a Remediation Method Statement report; if required as a result of (a), above; has been submitted to and approved by the Local Planning Authority.
- (c) This site shall not be occupied, or brought into use, until:
- (i) All works which form part of the Remediation Method Statement report pursuant to the discharge of condition (b) above have been fully completed and if required a formal agreement is submitted that commits to ongoing monitoring and/or maintenance of the remediation scheme.
 - (ii) A Remediation Verification Report confirming that the site is suitable for use has been submitted to, and agreed by, the Local Planning Authority.
- (d) Any contamination, other than that reported by virtue of condition (a) and (b), encountered during the development of this site shall be brought to the attention of the Local Planning Authority as soon as practically possible; a scheme to render this contamination harmless shall be submitted to and agreed by, the Local Planning Authority and subsequently fully implemented prior to the occupation of this site.

Reason: To ensure that any contamination affecting the site is dealt with in a manner that safeguards human health, the built and natural environment and controlled waters.

- 4 Prior to occupation, each of the residential properties shall incorporate an Electric Vehicle (EV) ready domestic charging point.

Reason: To contribute to the objective of providing a sustainable transport network and to provide the necessary infrastructure to help off-set the adverse impact of the operational phase of the development on local air quality.

- 5 Prior to the commencement of the development details of a residential travel plan shall be submitted to and approved in writing by the Local Planning Authority. Measures within the approved travel plan shall be implemented in full within an agreed timetable set out in the plan, unless otherwise agreed in writing by the Local Planning Authority*.

Reason: In the interests of promoting sustainable transport and minimising the impact on local air quality.

- 6 No development approved by this planning permission shall take place until a detailed surface water drainage scheme has been submitted to, and approved in writing by, the local planning authority. The surface water drainage system will be based on the submitted FRA carried out by Stomor reference ST2570/FRA-1707-Lannock School Rev 0 dated July 2017 and all

supporting information.

The surface water drainage scheme should include;

1. Limiting the surface water run-off to a maximum of 5l/s generated by the 1 in 100 year + climate change critical storm so that it will not exceed the run-off from the undeveloped site and not increase the risk of flooding off-site.
2. Providing attenuation to ensure no increase in surface water run-off volumes for all rainfall events up to and including the 1 in 100 year + 40% climate change event for the entire site.
3. Implementing the appropriate drainage strategy based on attenuation and discharge into Anglian surface water sewer network using appropriate above ground SuDS measures and indicated on drainage strategy drawing ST-2570-06-B.
4. Detailed engineered drawings of the proposed SuDS features and discharge control devices including their, location, size, volume, depth and any inlet and outlet features.
5. Detailed surface water calculations and modelling for all rainfall events up to and including the 1 in 100 year + climate change event supported by a clearly labelled drainage layout plan showing pipe networks. This plan should show any pipe 'node numbers' that have been referred to in network calculations and it should also show invert and cover levels of manholes.
6. Final detailed management plan to include arrangements for adoption and any other arrangements to secure the operation of the scheme throughout its lifetime.

The scheme shall be fully implemented and subsequently maintained, in accordance with the timing / phasing arrangements embodied within the scheme, or within any other period as may subsequently be agreed, in writing, by the local planning authority.

Reason: To prevent flooding by ensuring the satisfactory storage of or disposal of surface water from the site and reduce the risk of flooding to the proposed development and future users.

- 7 No development shall commence until a foul water strategy has been submitted to and approved in writing by the Local Planning Authority. No dwellings shall be occupied until the works have been carried out in accordance with the foul water strategy so approved unless otherwise approved in writing by the Local Planning Authority.

Reason: To prevent environmental and amenity problems arising from flooding.

- 8 No drainage works shall commence until a surface water management strategy has been submitted to and approved in writing by the Local Planning Authority. No hard-standing areas to be constructed until the works have been carried out in accordance with the surface water strategy so approved unless otherwise agreed in writing by the Local Planning Authority.

Reason: To prevent environmental and amenity problems arising from flooding.

- 9 Prior to commencement of the development the main access road shall be provided 5.5 metres wide for the first 60 metres from the existing radii kerbs subsequently the principal access road may be narrowed to a minimum of 5.0 metres wide to the current specification of Hertfordshire County Council and to the local Planning Authority's satisfaction.

Reason: In order to protect highway safety and the amenity of other users of the public highway.

- 10 Before the access is first brought into use vehicle to vehicle visibility splays of 2.4 metres x 22 metres to both directions shall be provided and permanently maintained. Within which there shall be no obstruction to visibility between 600 mm and 2.0 metres above the footway level. These measurements shall be taken from the intersection of the centre line of the permitted access with the edge of the carriageway of the highway respectively into the application site and from the intersection point along the edge of the carriageway.

Reason: To provide adequate visibility for drivers entering and leaving the site.

- 11 The gradient of the access from the adjacent development road shall not be steeper than 1 in 20 for the first 15 metres from the edge of the carriageway.

Reason: To ensure a vehicle is approximately level before being driven off and on to the highway.

- 12 Prior to the commencement of the development, a Construction Management Plan/Method Statement shall be submitted to and approved in writing by the local planning authority in consultation with the highway authority. Thereafter the construction of the development shall only be carried out in accordance with the approved Plan/Statement.

The Construction Management Plan/Method statement shall address the following matters:

- (i) Details of a construction phasing programme (including any pre-construction or enabling works);
- (ii) Hours of construction operations including times of deliveries and removal of waste;
- (iii) Site set up and general arrangements for storing plant including cranes, materials, machinery and equipment, temporary offices and other facilities, construction vehicle parking and loading/unloading and vehicle turning areas;
- (iv) Access and protection arrangements around the site for pedestrians, cyclists and other customers;
- (v) Details of provisions for temporary car parking during construction;
- (vi) The location of construction traffic routes to and from the site, details of their signing, monitoring and enforcement measures;
- (vii) Screening and hoarding details
- (viii) End of day tidying procedures;
- (ix) Construction and storage compounds (including areas designated for car parking);
- (x) Siting and details of wheel washing facilities;
- (xi) Cleaning of site entrances, site access roads and the adjacent public highway and;
- (xii) Disposal of surplus materials.

Reason: To minimise the impact of construction vehicles and to maintain the amenity of the local area.

- 13 Before the first occupation or use of the development further details of the circulation route for refuse collection vehicles are to be submitted to the Local Planning Authority and approved in writing. The required details shall include a full construction specification for the route, and a plan defining the extent of the area to which that specification will be applied. No dwelling forming part of the development shall be occupied until the refuse vehicle circulation route has been

laid out and constructed in accordance with the details thus approved, and thereafter the route shall be maintained in accordance with those details.

Reason: To facilitate refuse and recycling collections.

14 The landscape details to be submitted as reserved matters shall include the following :

- a) which, if any, of the existing vegetation is to be removed and which is to be retained;
- b) what new trees, shrubs, hedges and grassed areas are to be planted, together with the species proposed and the size and density of planting;
- c) the location and type of any new walls, fences or other means of enclosure and any hardscaping proposed;
- d) details of any earthworks proposed.

Reason: To ensure the submitted details are sufficiently comprehensive to enable proper consideration to be given to the appearance of the completed development.

15 The approved details of landscaping shall be carried out before the end of the first planting season following either the first occupation of any of the buildings or the completion of the development, whichever is the sooner; and any trees or plants which, within a period of 5 years from the completion of the development, die, are removed or become seriously damaged or diseased, shall be replaced during the next planting season with others of similar size and species, unless the Local Planning Authority agrees in writing to vary or dispense with this requirement.

Reason: To safeguard and enhance the appearance of the completed development and the visual amenity of the locality.

Proactive Statement

Planning permission has been granted for this proposal. The Council acted proactively through early engagement with the applicant at the pre-application stage which led to improvements to the scheme. The Council has therefore acted proactively in line with the requirements of the Framework (paragraphs 186 and 187) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015.

Informatives

Highways

Prior to commencement of the development the applicant is advised to contact the 0300 1234 047 to arrange a site visit to agree a condition survey of the approach of the highway leading to the development likely to be used for delivery vehicles to the development. Under the provisions of Section 59 of the Highways Act 1980 the developer may be liable for any damage caused to the public highway as a result of traffic associated with the development. Herts County Council may require an Officer presence during movements of larger loads, or videoing of the movements may be considered.

Travel Plan

The Travel Plan should include a target for ultra low emission vehicle (ULEV) ownership levels within the development and the Travel Information Pack should include information and advice with regards to the availability and support for ULEV and ULEV infrastructure.

EV Charging-Point specification

The charging point shall be installed by an appropriately certified electrician/electrical contractor in accordance with the following specification. The necessary certification of electrical installation should be submitted as evidence of appropriate installation to meet the requirements of Part P of the most current Building Regulations.

Cable and circuitry ratings should be of adequate size to ensure a minimum continuous current demand for the vehicle of 16A and a maximum demand of 32A (which is recommended for Eco developments)

- A separate dedicated circuit protected by an RBCO should be provided from the main distribution board, to a suitably enclosed termination point within a garage or an accessible enclosed termination point for future connection to an external charge point.
- The electrical circuit shall comply with the Electrical requirements of BS7671: 2008 as well as conform to the IET code of practice on Electric Vehicle Charging Equipment installation 2012 ISBN 978-1-84919-515-7 (PDF).
- If installed in a garage all conductive surfaces should be protected by supplementary protective equipotential bonding. For vehicle connecting points installed such that the vehicle can only be charged within the building, e.g. in a garage with a (non-extended) tethered lead, the PME earth may be used. For external installations the risk assessment outlined in the IET code of practice must be adopted, and may require additional earth stake or mat for the EV charging circuit. This should be installed as part of the EV ready installation to avoid significant on cost later.

NOTES

- 1 **Failure to satisfy conditions may invalidate this permission and/or result in enforcement action. Particular attention should be paid to the requirements of any condition in bold.**
- 2 Circular 04/2008 (Planning Related Fees) states that where an application is made under Article 21 of the Town and Country Planning (General Development Procedure) Order 1995, a fee will be payable for any consent, agreement or approval required by condition or limitation attached to the grant of planning permission.
- 3 The fee is £97 per request or £28 where the permission relates to an extension or

alteration to a dwellinghouse or other development in the curtilage of the dwellinghouse. No fee is required for applications resulting from a condition removing "permitted development rights".

The request can be informal through the submission of a letter or plans, or formal through the completion of an application form and the submission of plans. Any number of conditions may be included on a single request. The form is available on the Council's website:

www.north-herts.gov.uk/home/planning/planning-applications/submit-planning-application

- 4 If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.

If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.

Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.

If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

The Secretary of State need not consider an appeal if it seems to him that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

In practice, the Secretary of State does not refuse to consider appeals solely because the local planning authority based their decision on a direction given by him.

5 **Purchase Notices**

If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

- 6 The District Council and County Highway Authority wish to ensure that, in the implementation of the development, hereby approved, the highway verge adjacent to the property is not damaged or does not become unsightly due to the stationing of skips, parking of vehicles, storing of building materials etc thereon. Your attention is, therefore, drawn to the provisions of Section 131 of the Highways Act 1980 and to the Hertfordshire County Council Bylaws 1955 (specifically relating to grass margins and verges in Letchworth Garden City) by virtue of which such actions, unless authorised by the prior grant of a licence, constitute a prosecutable offence. Persons

responsible for undertaking the development and any associated works are, therefore, strongly encouraged to take appropriate steps to ensure that no breach of the said legislation occurs during the course of such activities. In the event of any damage being caused it will be expected that suitable reinstatement is undertaken upon completion of the development. Failure to do so could also result in legal action being pursued. To obtain information regarding the issue of licences, contact Hertfordshire Highways, Hertfordshire County Council, County Hall, Pegs Lane, Hertford, SG138DQ or telephone 0300 1234 047.

THIS PLANNING PERMISSION DOES NOT CONSTITUTE APPROVAL UNDER BUILDING REGULATIONS AND IS NOT A LISTED BUILDING CONSENT OR CONSERVATION AREA CONSENT. IT DOES NOT CONVEY ANY APPROVAL OR CONSENT WHICH MAY BE REQUIRED UNDER ANY ENACTMENT, BYE-LAW, ORDER OR REGULATION OTHER THAN SECTION 57 OF THE TOWN AND COUNTRY PLANNING ACT 1990.

Consent for these works may be required from the Letchworth Garden City Heritage Foundation (www.letchworth.com/heritage-foundation) under the Scheme of Management or leasehold covenants. If you do not already have their approval, you are advised to contact the Heritage Foundation on home@letchworth.com or 01462 476017 to confirm whether you also need to submit an application to them.
