45 SECOND QUARTER REVENUE MONITORING 2017/18

The Accountancy Manager presented the report of the Head of Finance, Performance and Asset Management in respect of the Second Quarter Revenue Budget Monitoring 2017/18, and advised that the report was before this Committee for consideration prior to presentation to Cabinet on 21 November 2017.

The Accountancy Manager advised that the forecast budget variance was a decrease of £131,000 on the net working budget of £17.230M for 2017/18, with an ongoing impact in future years of a £13,000 budget increase. He referred to Table 2 of the report and highlighted the major variances, namely the £200,000 increased income projection for Housing Benefit overpayments and the £100,000 reduction in projected income from car parking fees.

The Accountancy Manager commented that there was a forecast underachievement of £115,000 on the £929,000 worth of agreed efficiencies for 2017/18, as set out in Paragraph 8.3 of the report. The progress of items carried forward from 2016/17 were summarised in Paragraph 8.4 of the report.

The Accountancy Manager explained that Table 3 in the report showed that three corporate financial health indicators were at green status, with the exception at red status being car parking fees. Table 4 showed the forecast General Fund impact and Table 5 indicated that the remaining allowance for known financial risks was £493,000.

In response to queries raised by Members, the Head of Finance, Performance and Asset Management undertook to provide the Committee with further information on the cost of legal counsel advice in relation to a judicial review and the rationale for the post of Economic Development Officer becoming a shared resource between NHDC and East Hertfordshire District Council.

48 UPDATED FINANCIAL REGULATIONS

The Head of Finance, Performance and Asset Management presented a report seeking consideration of proposed updated Financial Regulations, prior to recommendation to Council for adoption.

The Head of Finance, Performance and Asset Management advised that the Financial Regulations had been updated to:

- Reflect changes to the staffing structure, including the retirement of the Strategic Director for Finance, Policy and Governance;
- Make them shorter and easier to find information; and
- Incorporate other minor updates.

The Head of Finance, Performance and Asset Management stated that Section 8 of the report summarised the changes. There were two changes to the reporting of revenue budget variances. The previous version required that variances (overspends and underspends) that were greater than 5% of budget or £25,000 were reported to Cabinet. Given that there were some budgets which were quite low in value (especially where they were a combination of expenditure and income) this could require some very low variances to be reported. The new version proposed that the variance had to be greater than 5% and £25,000. This meant that variances on larger budgets would not get reported until they became very high (e.g. 5% of a £4M budget would be £200,000). However, the Regulations further stated that the Chief Finance Officer would determine whether or not to report any variances that did not meet the value criteria.

It was noted that the second change related to the first quarter revenue budget monitoring. From now on, the financial accounts needed to be approved by Finance, Audit and Risk Committee by the end of July each year. To avoid having an additional meeting of the Committee, it was proposed that this meeting would also review the first quarter finance reports. To meet the deadlines for this meeting, it may be necessary for the first quarter revenue monitor to be based on the first two months, updated for significant changes that had occurred during month 3.

The Committee was supportive of the updated Financial regulations as drafted.

RECOMMENDED TO COUNCIL: That the proposed updated Financial Regulations, as attached at Appendix A to the report, be adopted.

REASON FOR DECISION: To reflect changes to the staffing structure, to make the regulations more concise with easier to find information, and to incorporate other minor updates..
