

We, the undersigned, being residents of Sandon and the surrounding area, object to the granting of a Premises Licence for Poplars Farm for the "Sandon Fields" Festival planned to be held on a (unspecified) weekend during June, July, August or September 2018 and subsequent years.

1. We consider that the location is entirely inappropriate for such an event.
2. All routes to Poplars Farm are via narrow roads and lanes where the huge increase in traffic, some of it very heavy vehicles, before, during and after the proposed event would be a considerable danger to all road users, pedestrians and horse riders.
3. The proximity of the proposed event to residential properties is likely to cause significant public nuisance from noise, light, smells (car exhausts) and litter.
4. The closeness of the site to the children's play and games areas on Roe Green causes real concern about the safety of children.
5. Due to the open nature of the site we do not believe it is possible to make it and the campsite secure enough to avoid potential crime and disorder, especially with Public Rights of Way traversing the location.

We request that the application by R. Maskell, dated 21 February 2018 be rejected by North Herts District Council

3. The proximity of the proposed event to residential properties is likely to cause significant public nuisance from noise, light, smells (car exhausts) and litter.
4. The closeness of the site to the children's play and games areas on Roe Green causes real concern about the safety of children.
5. Due to the open nature of the site we do not believe it is possible to make it and the campsite secure enough to avoid potential crime and disorder, especially with Public Rights of Way traversing the location.

We request that the application by R. Maskell, dated 21 February 2018 be rejected by North Herts District Council

We, the undersigned, being residents of Sandon and the surrounding area, object to the granting of a Premises Licence for Poplars Farm for the "Sandon Fields" Festival planned to be held on a (unspecified) weekend during June, July, August or September 2018 and subsequent years.

1. We consider that the location is entirely inappropriate for such an event.
2. All routes to Poplars Farm are via narrow roads and lanes where the huge increase in traffic, some of it very heavy vehicles, before, during and after the proposed event would be a considerable danger to all road users, pedestrians and horse riders.
3. The proximity of the proposed event to residential properties is likely to cause significant public nuisance from noise, light, smells (car exhausts) and litter.
4. The closeness of the site to the children's play and games areas on Roe Green causes real concern about the safety of children.
