

**LICENSING AND APPEALS SUB-COMMITTEE
16 JUNE 2023**

***PART 1 – PUBLIC DOCUMENT**

AGENDA ITEM No.

LICENSING ACT 2003

**APPLICATION BY NEIL BURTON
FOR THE VARIATION OF A PREMISES LICENCE IN RESPECT OF
CHEZ BURTON, 48 HIGH STREET, BALDOCK, HERTFORDSHIRE, SG7 6BJ.**

REPORT OF THE LICENSING OFFICER

1. BACKGROUND

- 1.1 There is a licence granted under the Licensing Act 2003 (“the Act”) is currently in place for the premises, it was granted to the property under grandfather rights from the previous Licensing Act 1964 and has been in existence since September 2005. It was transferred to the current owner Neil Burton on 21 June 2021.
- 1.2 A copy of the current premises licence is attached as **Appendix A**.

2. APPLICATION

- 2.1 The application is for the variation of a premises licence under Section 34 of the Act.
- 2.2 The licensable activities and hours originally applied for, including operating schedule conditions, are as attached as **Appendix B**.

3. APPLICATION PROCESS

- 3.1 On 3 April 2023, Neil Burton made an application to North Hertfordshire District Council for the grant of a premises licence. The application was placed on hold as the publishing of the newspaper advert did not meet the required time scales. The application was restarted with the advert in the newspaper from 20 April with an end of consultation date of 21 May 2023 giving an extended consultation period of 32 days to match the other advertised dates. The applicant was aware of this extended opportunity for representations to be submitted.
- 3.2 The prescribed consultation period was from 20 April 2023 until 21 May 2023 inclusive.
- 3.3 The application was received electronically so copies were served by the Council to Hertfordshire Constabulary and the other responsible authorities.
- 3.4 A public notice was displayed on the premises for a period of not less than twenty-eight (28) consecutive days in accordance with the requirements of the Act.
- 3.5 Part way through the consultation period, the notice was erroneously amended by the applicant to display the last date for representations as the date of the notice, however the prescribed advertising requirements were met for the prescribed period. The

newspaper advert and the Council's website displayed the correct last date for representations.

- 3.6 Considering the relevant case law, a representation that was not submitted during the consultation period was not accepted however the customer was advised that he could be called as a witness by any of the persons making relevant representations to supplement the comments they had made during the consultation period.
- 3.7 A newspaper advertisement was placed in The Comet in accordance with the requirements of the Act.

4. REPRESENTATIONS

- 4.1 No representation was received from Hertfordshire Constabulary.
- 4.2 No representation was received from NHDC Environmental Protection.
- 4.3 No representations were received from any other responsible authority.
- 4.4 Five (5) representations were received from other persons against the application and are attached as **Appendix C**.
- 4.5 The Council's Scheme of Delegation requires the licensing officer to determine whether a representation is relevant as specified within the Act.
- 4.6 Where representations include comments that are not relevant to the Act, these comments have been clearly redacted by the licensing officer and should not be considered as part of the determination process. **Other persons must not refer to these paragraphs in any oral presentation at the hearing (see sections 8.8 – 8.13).**
- 4.7 Where the licensing officer has determined that the representations are relevant, it is for the sub-committee to determine what weight to apportion to each representation.
- 4.8 The applicant has been served with a copy of all representations by way of this report.
- 4.9 The applicant and the other persons making relevant representations have been invited to attend the hearing to present their cases respectively. They have been advised that they may be legally represented and of the hearing procedure.

5. OBSERVATIONS

- 5.1 In determining this application, the sub-committee must have regard to the representations and take such steps as it considers appropriate for the promotion of the licensing objectives.
- 5.2 In making its decision, the sub-committee must act with a view to promoting the licensing objectives. It must also have regard to the licensing authority's Statement of Licensing Policy and National Guidance.
- 5.3 The sub-committee has the following options when issuing the Decision Notice:
 - i) Grant the application as made

- ii) Grant the application with conditions and/or amendments to the licensable activities and/or timings (conditions should only be added where they are appropriate to promote the licensing objectives).
- iii) Refuse the application.

6. LICENSING POLICY CONSIDERATIONS

- 6.1 The following paragraphs from the Council's Statement of Licensing Policy 2021 – 2026 may be relevant to this application. This section does not prevent the sub-committee from considering other paragraphs of the Statement of Licensing Policy where they deem it appropriate:

B6

Our vision is:

“To ensure that North Hertfordshire continues to offer a diverse range of well managed licensed entertainment venues and community and cultural activities within a safe and enjoyable environment, in both the daytime and night-time economy.”

B8

The Council is committed to the continued promotion of the diverse cultural and community activities within the district and providing a safe and sustainable night-time economy for residents and visitors alike. Licensing Policy will be approached with a view to encouraging new and innovative forms of entertainment that promote this vision and are consistent with the four licensing objectives.

B9

In making a balanced decision, the Council accepts that those living in town centre environments are likely to experience a degree of disturbance associated with a vibrant night-time economy but this must be managed in such a way to limit its impact beyond that which is reasonable. The Council will at all times consider the wider benefits to and impacts on the community as a whole and will take a proportionate view on the weight to apply to representations.

D1.4

When determining applications the Council will have regard to this Statement of Licensing Policy, relevant legislation and any Guidance issued by the Home Office pursuant to section 182 of the Act. If relevant representations are made, the Licensing and Appeals Committee or its Sub-Committee, will balance its decision against all other factors for and against the application.

D1.5

The Council expects applicants to address the licensing objectives in their operating schedule and have due regard to this Policy. To achieve this, the Council supports the principles set out in sections 8.41 – 8.44 of the Statutory Guidance which state:

8.41

In completing an operating schedule, applicants are expected to have regard to the statement of licensing policy for their area. They must also be aware of expectations of the licensing authority and the responsible authorities as to the steps that are appropriate for the promotion of the licensing objectives, and to demonstrate knowledge of their local area when describing the steps they propose to take to promote the licensing objectives. Licensing authorities and responsible authorities are expected to publish information about what is meant by the promotion of the licensing objectives and to ensure that applicants can readily access advice about these matters. However, applicants are also expected to undertake their own enquiries about the area in which the premises are situated to inform the content of the application.

8.42

Applicants are, in particular, expected to obtain sufficient information to enable them to demonstrate, when setting out the steps they propose to take to promote the licensing objectives that they understand:

- the layout of the local area and physical environment including crime and disorder hotspots, proximity to local residential premises and proximity to areas where children may congregate;
- any risk posed to the local area by the applicants' proposed licensable activities; and
- any local initiatives (for example, local crime reduction initiatives or voluntary schemes including taxi-marshalling schemes, street pastors and other schemes) which may help to mitigate potential risks.

8.43

Applicants are expected to include positive proposals in their application on how they will manage any potential risks. Where specific policies apply in the area (for example, a cumulative impact policy), applicants are also expected to demonstrate an understanding of how the policy impacts on their application; any measures they will take to mitigate the impact; and why they consider the application should be an exception to the policy.

8.44

It is expected that enquiries about the locality will assist applicants when determining the steps that are appropriate for the promotion of the licensing objectives. For example, premises with close proximity to residential premises should consider what effect this will have on their smoking, noise management and dispersal policies to ensure the promotion of the public nuisance objective. Applicants must consider all factors which may be relevant to the promotion of the licensing objectives, and where there are no known concerns, acknowledge this in their application.

D1.6

Applicants should be aware that if they fail to have due regard to this Policy it is more likely that the licensing authority or responsible authorities may deem it appropriate to make a representation. If representations are made as a result of the applicants' failure to address this Policy in its operating schedule, the Licensing and Appeals Sub-Committee may take this into consideration when determining the application.

D2.1

Each licence application will be decided by reference to this Policy, the National Guidance issued by the Secretary of State, relevant legislation and to the individual circumstances of the particular application. The Council may depart from the Policy where the individual circumstances of any application merit such a decision in the interests of the promotion of the Licensing Objectives. Full reasons will be given for decisions taken by the Council when undertaking its licensing functions.

D2.4

In determining applications, the Council will focus primarily on the direct impact of the proposed activities on persons that may be adversely affected in relation to the licensing objectives. The scope of those persons that may be affected will be determined on a case by case basis taking into account all relevant factors.

D2.5

The Council acknowledges that the licensing process can only seek to impose conditions that are within the direct control of the licence holder. The Council does not consider that the term 'direct control' can be generically defined and will consider its definition relative to the specific circumstances of each application. For example, licensed premises at the end of road leading to a car park may be able to control its patrons leaving the premises and using the car park. In general terms, to be considered to be under the 'direct control' of a licence holder, there will need to be a direct causal link between the problems or likely problems and the specific premises.

D2.6

Where problems with a direct causal link to premises exist in relation to the promotion of the licensing objectives but they cannot be mitigated by the imposition of appropriate conditions, a Licensing Sub-Committee will seriously consider refusal of the application. For example, patrons

from a licensed premise that are causing disorder in a town centre after leaving the premises cannot be controlled by conditions, however the problem may be resolved by the refusal of the application or revocation of the licence.

D2.8

The Council recognises that the exercise of its licensing function is only one of a number of means of securing the promotion of the licensing objectives. The exercise, by the Council, of its licensing function should not be seen as a panacea for all problems within the community. The Council will encourage co-operation between its licensing function, planning function and environmental health functions to ensure that any problems are addressed using the most appropriate means and that its licensing function does not duplicate any other statutory responsibilities.

D2.9

The Council will carry out its licensing functions in the promotion of the licensing objectives and, in addition, will support the stated aims of the Act which are as follows:

- (i) protecting the public and local residents from crime, anti-social behaviour and noise nuisance caused by irresponsible licensed premises;*
- (ii) giving the police and licensing authorities the powers they need to effectively manage and police the night-time economy and take action against those premises that are causing problems;*
- (iii) recognising the important role which pubs and other licensed premises play in our local communities by minimising the regulatory burden on business, encouraging innovation and supporting responsible premises;*
- (iv) providing a regulatory framework for alcohol which reflects the needs of local communities and empowers local authorities to make and enforce decisions about the most appropriate licensing strategies for their local area; and*
- (v) encouraging greater community involvement in licensing decisions and giving local residents the opportunity to have their say regarding licensing decisions that may affect them.*

D3.1

The Council recognises that fixed and artificially early closing times previously established under the Licensing Act 1964 were one of the main causes of rapid binge drinking prior to closing times and one of the causes of disorder and disturbance when large numbers of customers were required to leave premises simultaneously. These concentrations of people leaving can result in friction at places such as late night food outlets, taxi ranks and other sources of transport. The aim through the promotion of the licensing objectives will be to reduce the potential for concentrations and achieve a slower dispersal of people from licensed premises through flexible opening times where appropriate.

D3.2

The Council recognises that arbitrary restrictions would undermine the principle of flexibility and should be avoided; the licensing objectives will be the paramount consideration at all times. That said, if there is a proliferation of disorder and/or disturbance related to licensed premises in a specific location, for example a town centre, the Council may determine that a fixed terminal hour to mitigate the problems may be appropriate if no other control method has resolved the problem.

D3.3

Generally, when the Council's discretion is engaged, the presumption will be to grant the hours requested unless there are representations raised by responsible authorities and/or other persons that demonstrate an adverse effect or likely effect on the licensing objectives

D3.4

The Council also recognises that licensing hours should not inhibit the development of a thriving and safe evening and night time economy, which is important for local investment, employment

and tourism. The Council will not seek to restrict the trading hours of any particular premises unless this is necessary to promote one or more of the licensing objectives.

D6.2

The Council recognises that each application must be considered on its own merits and any conditions attached to licences and certificates must be tailored to the individual style and characteristics of the premises and activities concerned. This is essential to avoid the imposition of disproportionate and overly burdensome conditions on premises. A standardised approach to imposing conditions must be avoided and conditions will only be lawful where they are deemed appropriate to promote the licensing objectives in response to relevant representations.

D6.3

Conditions will only be imposed when they are appropriate for the promotion of the licensing objectives and will focus upon matters within the control of the individual licensee such as the premises, places or events being used for licensable activities or the surrounding areas of the premises, places or events. Conditions are likely to be focused towards the direct impact of those activities on persons living in, working in or visiting areas affected by, or likely to be affected by, those activities.

D6.6

The Council interprets Section L of the application form, "Hours premises are open to the public", as an integral part of the operating schedule. In assessing an application, responsible authorities and other persons are likely to read those hours as though they were part of the operating schedule and tailor their representations based on that interpretation. These hours, therefore, form conditions of the licence operating schedule and restrict the hours during which members of the public can be on the licensed premises at the conclusion of trading irrespective of whether licensable activities are taking place. Applicants are advised to consider any necessary 'drinking-up time' or wind-down period at the end of normal licensable activities when completing this section of the application.

D6.7

The Council strongly believes that a carefully considered operating schedule that fully considers the impact of the proposed activities in relation to the promotion of the licensing objectives, having regard to this Policy and the Guidance, is less likely to result in the imposition of conditions by a Licensing Sub-Committee following representations.

D6.8

It is the Council's view that the imposition of conditions should be restricted to those that are proportionate in addressing any concerns in relation to the promotion of the licensing objectives. Conditions should not be used as a tool to attempt to mitigate every possible scenario; this will serve only to place undue burden on applicants and is not consistent with the general principles of the Guidance.

D6.9

Operating schedules and licence conditions should be drafted in such a way that it is clear to licence holders exactly what is required of them and these requirements should be concise and well-worded to assist the licence holder in managing their premises. The Council is strongly of the view that the imposition of a substantial list of conditions in order to grant an application calls into question the suitability of the applicant to hold a licence. Where a Licensing Sub-Committee determines that it is appropriate to impose a substantial list of conditions to the extent that they are effectively determining the day-to-day management of the premises, they will give serious consideration to refusing the application.

E3.1.1

Licensed premises may have significant potential to impact adversely on communities through public nuisances that arise from their operation. The Council interprets 'public nuisance' in its widest sense and takes it to include such things as noise, light, odour, litter and anti-social

behaviour, where matters arising at licensed premises impact on those living, working or otherwise engaged in activities in the locality. Ordinarily, the Council's Environmental Protection & Housing Team, in their role as a responsible authority, would take the lead in respect of nuisance issues.

E3.3.1

This may include noise and disturbance from customers on the premises and customers in outdoor areas such as terraces, beer gardens and smoking areas. It will also include noise, disturbance and obstruction from customers in the vicinity of premises smoking and/or drinking and customers arriving at, leaving or queuing outside premises. Measures to prevent a public nuisance may include, but are not limited to:

- use of time restrictions on specified areas of the premises (different times can apply to different areas);*
- cessation of the use of certain areas of the premises;*
- supervision of outdoor areas, entrances and exits;*
- suitably worded, clear and prominent signage;*
- restriction of seating in outdoor areas of the premises;*
- restriction of times that drinks can be taken in specified outdoor areas of the premises;*
- restriction of the number of customers permitted in specified outdoor areas of the premises, including time.*

E3.9.1

The Council is fully aware of the nuisance that can be caused by poorly managed or inappropriately located premises, however, will seek to strike an appropriate balance with its vision of promoting a diverse and vibrant daytime and night-time economy.

E3.9.3

Should disturbance from licensed premises become unreasonable, any review proceedings will seek to impose suitable control measures in the first instance. Should control measures prove ineffective or are deemed inappropriate then the restriction of licensable activity timings, removal of licensable activities, suspension or revocation of the licence will be seriously considered.

O1.1

The Council accepts that it can only consider matters in relation to the four licensing objectives when determining licensing applications, however as a public body it also has a statutory duty to consider the following legislative requirements:

- (i) Crime and Disorder Act 1998
Local authorities are required to have due regard to the crime and disorder implications of any decision it makes.*
- (ii) Human Rights Act 1998
Local authorities are required to implement the Act in a manner consistent with the Human Rights Act 1998 by giving due consideration to the European Convention on Human Rights and Fundamental Freedoms.*
- (iii) Equality Act 2010
Local authorities are required to implement the Act in a manner consistent with its responsibilities to consider the equality implications of any decision it makes.*

O4.2.1

In order for a representation to be relevant it must be:

- (i) made during the prescribed consultation period;*
- (ii) relate to the effect or likely effect on the licensing objectives;*
- (iii) not be frivolous or vexatious [other persons only]; and*
- (iv) in the case of reviews, not be repetitious [other persons only]*

7. RELEVANT EXTRACTS OF STATUTORY GUIDANCE

7.1 The following paragraphs from the Guidance issued by the Home Office under section 182 of the Licensing Act 2003 (December 2022 version) may be relevant to this application. This section does not prevent the sub-committee from considering other paragraphs of the Guidance where they deem it appropriate, and the determination should be based upon consideration of the full document:

1.3

The licensing objectives are:

- *The prevention of crime and disorder;*
- *Public safety;*
- *The prevention of public nuisance; and*
- *The protection of children from harm.*

1.4

Each objective is of equal importance. There are no other statutory licensing objectives, so that the promotion of the four objectives is a paramount consideration at all times.

1.5

However, the legislation also supports a number of other key aims and purposes. These are vitally important and should be principal aims for everyone involved in licensing work.

They include:

- *protecting the public and local residents from crime, anti-social behaviour and noise nuisance caused by irresponsible licensed premises;*
- *giving the police and licensing authorities the powers they need to effectively manage and police the night-time economy and take action against those premises that are causing problems;*
- *recognising the important role which pubs and other licensed premises play in our local communities by minimising the regulatory burden on business, encouraging innovation and supporting responsible premises;*
- *providing a regulatory framework for alcohol which reflects the needs of local communities and empowers local authorities to make and enforce decisions about the most appropriate licensing strategies for their local area; and*
- *encouraging greater community involvement in licensing decisions and giving local residents the opportunity to have their say regarding licensing decisions that may affect them.*

1.16

Conditions on a premises licence or club premises certificate are important in setting the parameters within which premises can lawfully operate. The use of wording such as “must”, “shall” and “will” is encouraged. Licence conditions:

- *must be appropriate for the promotion of the licensing objectives;*
- *must be precise and enforceable;*
- *must be unambiguous and clear in what they intend to achieve;*
- *should not duplicate other statutory requirements or other duties or responsibilities placed on the employer by other legislation;*
- *must be tailored to the individual type, location and characteristics of the premises and events concerned;*
- *should not be standardised and may be unlawful when it cannot be demonstrated that they are appropriate for the promotion of the licensing objectives in an individual case;*
- *should not replicate offences set out in the 2003 Act or other legislation;*
- *should be proportionate, justifiable and be capable of being met, (for example, whilst beer glasses may be available in toughened glass, wine glasses may not);*
- *cannot seek to manage the behaviour of customers once they are beyond the direct management of the licence holder and their staff, but may impact on the behaviour of*

customers in the immediate vicinity of the premises or as they enter or leave; and

- should be written in a prescriptive format.

1.17

The licensing authority should only impose conditions on a premises licence or club premises certificate which are appropriate and proportionate for the promotion of the licensing objectives. If other existing law already places certain statutory responsibilities on an employer at or operator of a premises, it cannot be appropriate to impose the same or similar duties on the premises licence holder, or club. It is only where additional and supplementary measures are appropriate to promote the licensing objectives that there will be a requirement for appropriate, proportionate conditions to be attached.

2.15

The 2003 Act enables licensing authorities and responsible authorities, through representations, to consider what constitutes public nuisance and what is appropriate to prevent it in terms of conditions attached to specific premises licences and club premises certificates. It is therefore important that in considering the promotion of this licensing objective, licensing authorities and responsible authorities focus on the effect of the licensable activities at the specific premises on persons living and working (including those carrying on business) in the area around the premises which may be disproportionate and unreasonable. The issues will mainly concern noise nuisance, light pollution, noxious smells and litter.

2.16

Public nuisance is given a statutory meaning in many pieces of legislation. It is however not narrowly defined in the 2003 Act and retains its broad common law meaning. It may include in appropriate circumstances the reduction of the living and working amenity and environment of other persons living and working in the area of the licensed premises. Public nuisance may also arise as a result of the adverse effects of artificial light, dust, odour and insects or where its effect is prejudicial to health.

2.17

Conditions relating to noise nuisance will usually concern steps appropriate to control the levels of noise emanating from premises. This might be achieved by a simple measure such as ensuring that doors and windows are kept closed after a particular time, or persons are not permitted in garden areas of the premises after a certain time. More sophisticated measures like the installation of acoustic curtains or rubber speaker mounts to mitigate sound escape from the premises may be appropriate. However, conditions in relation to live or recorded music may not be enforceable in circumstances where the entertainment activity itself is not licensable (see chapter 16). Any conditions appropriate to promote the prevention of public nuisance should be tailored to the type, nature and characteristics of the specific premises and its licensable activities. Licensing authorities should avoid inappropriate or disproportionate measures that could deter events that are valuable to the community, such as live music. Noise limiters, for example, are expensive to purchase and install and are likely to be a considerable burden for smaller venues.

2.18

As with all conditions, those relating to noise nuisance may not be appropriate in certain circumstances where provisions in other legislation adequately protect those living in the area of the premises. But as stated earlier in this Guidance, the approach of licensing authorities and responsible authorities should be one of prevention and when their powers are engaged, licensing authorities should be aware of the fact that other legislation may not adequately cover concerns raised in relevant representations and additional conditions may be appropriate.

2.19

Where applications have given rise to representations, any appropriate conditions should normally focus on the most sensitive periods. For example, the most sensitive period for people

being disturbed by unreasonably loud music is at night and into the early morning when residents in adjacent properties may be attempting to go to sleep or are sleeping. This is why there is still a need for a licence for performances of live music between 11 pm and 8 am. In certain circumstances, conditions relating to noise emanating from the premises may also be appropriate to address any disturbance anticipated as customers enter and leave.

8.41

In completing an operating schedule, applicants are expected to have regard to the statement of licensing policy for their area. They must also be aware of the expectations of the licensing authority and the responsible authorities as to the steps that are appropriate for the promotion of the licensing objectives, and to demonstrate knowledge of their local area when describing the steps they propose to take to promote the licensing objectives. Licensing authorities and responsible authorities are expected to publish information about what is meant by the promotion of the licensing objectives and to ensure that applicants can readily access advice about these matters. However, applicants are also expected to undertake their own enquiries about the area in which the premises are situated to inform the content of the application.

8.42

Applicants are, in particular, expected to obtain sufficient information to enable them to demonstrate, when setting out the steps they propose to take to promote the licensing objectives, that they understand:

- the layout of the local area and physical environment including crime and disorder hotspots, proximity to residential premises and proximity to areas where children may congregate;*
- any risk posed to the local area by the applicants' proposed licensable activities; and*
- any local initiatives (for example, local crime reduction initiatives or voluntary schemes including local taxi-marshalling schemes, street pastors and other schemes) which may help to mitigate potential risks.*

8.44

It is expected that enquiries about the locality will assist applicants when determining the steps that are appropriate for the promotion of the licensing objectives. For example, premises with close proximity to residential premises should consider what effect this will have on their smoking, noise management and dispersal policies to ensure the promotion of the public nuisance objective. Applicants must consider all factors which may be relevant to the promotion of the licensing objectives, and where there are no known concerns, acknowledge this in their application.

8.47

Applicants are expected to provide licensing authorities with sufficient information in this section to determine the extent to which their proposed steps are appropriate to promote the licensing objectives in the local area. Applications must not be based on providing a set of standard conditions to promote the licensing objectives and applicants are expected to make it clear why the steps they are proposing are appropriate for the premises.

9.42

Licensing authorities are best placed to determine what actions are appropriate for the promotion of the licensing objectives in their areas. All licensing determinations should be considered on a case-by-case basis. They should take into account any representations or objections that have been received from responsible authorities or other persons, and representations made by the applicant or premises user as the case may be.

9.43

The authority's determination should be evidence-based, justified as being appropriate for the promotion of the licensing objectives and proportionate to what it is intended to achieve.

9.44

Determination of whether an action or step is appropriate for the promotion of the licensing objectives requires an assessment of what action or step would be suitable to achieve that end. While this does not therefore require a licensing authority to decide that no lesser step will achieve the aim, the authority should aim to consider the potential burden that the condition would impose on the premises licence holder (such as the financial burden due to restrictions on licensable activities) as well as the potential benefit in terms of the promotion of the licensing objectives. However, it is imperative that the authority ensures that the factors which form the basis of its determination are limited to consideration of the promotion of the objectives and nothing outside those parameters. As with the consideration of licence variations, the licensing authority should consider wider issues such as other conditions already in place to mitigate potential negative impact on the promotion of the licensing objectives and the track record of the business. Further advice on determining what is appropriate when imposing conditions on a licence or certificate is provided in Chapter 10. The licensing authority is expected to come to its determination based on an assessment of the evidence on both the risks and benefits either for or against making the determination.

10.8

The licensing authority may not impose any conditions unless its discretion has been exercised following receipt of relevant representations and it is satisfied as a result of a hearing (unless all parties agree a hearing is not necessary) that it is appropriate to impose conditions to promote one or more of the four licensing objectives. In order to promote the crime prevention licensing objective conditions may be included that are aimed at preventing illegal working in licensed premises. This provision also applies to minor variations.

10.9

It is possible that in some cases no additional conditions will be appropriate to promote the licensing objectives.

10.10

The 2003 Act requires that licensing conditions should be tailored to the size, type, location and characteristics and activities taking place at the premises concerned. Conditions should be determined on a case-by-case basis and standardised conditions which ignore these individual aspects should be avoided. For example, conditions should not be used to implement a general policy in a given area such as the use of CCTV, polycarbonate drinking vessels or identity scanners where they would not be appropriate to the specific premises. Conditions that are considered appropriate for the prevention of illegal working in premises licensed to sell alcohol or late night refreshment might include requiring a premises licence holder to undertake right to work checks on all staff employed at the licensed premises or requiring that evidence of a right to work check, either physical or digital (e.g. copy of any document checked or a clear copy of the online right to work check) is retained at the licensed premises. Licensing authorities and other responsible authorities should be alive to the indirect costs that can arise because of conditions. These could be a deterrent to holding events that are valuable to the community or for the funding of good and important causes. Licensing authorities should therefore ensure that any conditions they impose are only those which are appropriate for the promotion of the licensing objectives.

10.13

The Government acknowledges that different licensing strategies may be appropriate for the promotion of the licensing objectives in different areas. The 2003 Act gives the licensing authority power to make decisions about the hours during which premises can conduct licensable activities as part of the implementation of its licensing policy statement. Licensing authorities are best placed to make decisions about appropriate opening hours in their areas based on their local knowledge and in consultation with responsible authorities. However, licensing authorities must always consider each application and must not impose predetermined licensed opening hours, without giving individual consideration to the merits of each application.

10.14

Where there are objections to an application to extend the hours during which licensable activities are to be carried on and the licensing authority determines that this would undermine the licensing objectives, it may reject the application or grant it with appropriate conditions and/or different hours from those requested

8. LICENSING OFFICER COMMENTS

- 8.1 The comments within this section of the report are provided by the licensing officer to assist the sub-committee with the interpretation of the Act, the Guidance and existing case law. It is for the sub-committee to determine what weight they attach to this advice.

Definition of ‘appropriate’

- 8.2 When determining applications, licensing authorities must ensure that their decision is based on what is ‘appropriate’ for the promotion of the licensing objectives.

- 8.3 The Guidance explains ‘appropriate’ as:

9.43

The authority’s determination should be evidence-based, justified as being appropriate for the promotion of the licensing objectives and proportionate to what it is intended to achieve.

9.44

Determination of whether an action or step is appropriate for the promotion of the licensing objectives requires an assessment of what action or step would be suitable to achieve that end. While this does not therefore require a licensing authority to decide that no lesser step will achieve the aim, the authority should aim to consider the potential burden that the condition would impose on the premises licence holder (such as the financial burden due to restrictions on licensable activities) as well as the potential benefit in terms of the promotion of the licensing objectives. However, it is imperative that the authority ensures that the factors which form the basis of its determination are limited to consideration of the promotion of the objectives and nothing outside those parameters. As with the consideration of licence variations, the licensing authority should consider wider issues such as other conditions already in place to mitigate potential negative impact on the promotion of the licensing objectives and the track record of the business. Further advice on determining what is appropriate when imposing conditions on a licence or certificate is provided in Chapter 10. The licensing authority is expected to come to its determination based on an assessment of the evidence on both the risks and benefits either for or against making the determination.

- 8.4 It is anticipated that, in due course, case law will provide clarity on the meaning of ‘appropriate’ as referred to in paragraphs 9.43 and 9.44 of the Guidance. The sub-committee is therefore advised to give ‘appropriate’ its ordinary meaning, as expanded upon by paragraph 9.43 of the Guidance, subject to the over-riding requirement on all local authority decisions of reasonableness.

- 8.5 This approach, of allowing the courts to provide clarity, is reflected in the following paragraphs of the Guidance:

1.9

Section 4 of the 2003 Act provides that, in carrying out its functions, a licensing authority must ‘have regard to’ guidance issued by the Secretary of State under section 182. This Guidance is therefore binding on all licensing authorities to that extent. However, this Guidance cannot anticipate every possible scenario or set of circumstances that may arise and, as long as licensing authorities have properly understood this Guidance, they may depart from it if they have

good reason to do so and can provide full reasons. Departure from this Guidance could give rise to an appeal or judicial review, and the reasons given will then be a key consideration for the courts when considering the lawfulness and merits of any decision taken.

1.10

Nothing in this Guidance should be taken as indicating that any requirement of licensing law or any other law may be overridden (including the obligations placed on any public authorities under human rights legislation). This Guidance does not in any way replace the statutory provisions of the 2003 Act or add to its scope and licensing authorities should note that interpretation of the 2003 Act is a matter for the courts. Licensing authorities and others using this Guidance must take their own professional and legal advice about its implementation.

- 8.6 The sub-committee should also be aware that their decision must be proportionate to the evidence received in respect of the application and representation. Proportionality is a key factor in assisting with the definition of 'appropriate'.

Evidence not to consider

- 8.7 A number of points made in the representations have been deemed not relevant by the licensing officer. The points have been redacted and cannot be seen. The following paragraphs 8.8 to 8.13 are a summary of the redacted points which, for clarity, should not be discussed during the hearing.
- 8.8 There are comments made regarding how previous complainants had not been directly informed. There is a prescribed consultation process that was followed, and the licensing authority cannot go beyond those requirements.
- 8.9 There are comments suggesting that patrons of the venue will become rowdy whilst on the premises due to alcohol consumption. It is an offence under the Act to serve persons that are believed to be drunk or to allow disorderly conduct on a licensed premises. The licence holder will have a duty under the Act, were the variation to the premises licence to be granted, to ensure that patrons behave in a lawful manner.
- 8.10 There was a comment that allowing the variation would devalue the objector's property. Property prices are not within the remit of the four licensing objectives therefore cannot be considered by the sub-committee.
- 8.11 There are comments made regarding comments made on social media by people regarding the residents. There is no evidence to suggest that these comments were posted by Mr Burton or his staff therefore he cannot be held responsible for the behaviour of others on social media which is out of his control. The application should be judged on its content and the sub-committee should consider whether or not it believes that the applicant can adequately promote the licensing objectives.
- 8.12 There were comments that Mr Burton has reneged on comments made during a previous licensing hearing. Those comments were made in relation to that particular application and Mr Burton has complied with the conditions imposed by that licensing sub-committee. A licence holder is permitted to make a variation application at any time under the Act therefore this is a separate application that should be judged on the specific evidence relating to the content of this application.
- 8.13 There was a comment regarding the applicant's reference to his ability to make a profit utilising the current licence conditions. The other person queried the relevance of this

against the national economic situation impacting on all businesses. The application should be judged solely on the ability of the licence holder to adequately promote the licensing objectives, national economic considerations are not relevant to the licensing objectives.

Consumption of alcohol

- 8.14 The sub-committee are reminded that the consumption of alcohol is not a licensable activity, it is the sale that is licensable.
- 8.15 The current premises licence includes the outdoor area as part of the licensed premises on the plan therefore the sale and consumption of alcohol are permitted in the garden area shown on said plan.
- 8.16 In the same way that a sub-committee, should they be minded based on the available evidence, can restrict the use of a beer garden adjacent to a licensed premises, it can also restrict the use of any area included on the plan.

Outdoor dining

- 8.17 The serving and consumption of food is not a licensable activity prior to 23:00hrs however, as it is taking place in a licensed area, any restriction on the use of the outdoor area would also apply to dining.
- 8.18 Post 23:00hrs. the provision of late night refreshment is licensable. The current premises licence authorises late night refreshment until 00:30hrs Monday to Saturday and until midnight on Sundays, however this activity is indoors only.
- 8.19 As the provision of late night refreshment takes place at the point the food is delivered, i.e., outdoors, this would not be permitted even if extended hours for the use of the outdoor area was permitted.
- 8.20 This would mean in practice that post 23:00hrs, the area could only be used for:
 - (i) the consumption of alcohol within the permitted opening hours; and/or
 - (ii) the consumption of food delivered prior to 23:00hrs

Review of a premises licence

- 8.21 Should the sub-committee be minded to grant the variation the revised licence will exist in perpetuity however there is a safeguard within the Act.
- 8.22 Any responsible authority or other person may apply to the licensing authority for the review of a premises licence if they can demonstrate that the premises are not adequately promoting the licensing objectives. In the case of other persons, they would need to demonstrate the direct impact on their household of licensable activities at the premises in terms of one or more of the licensing objectives.
- 8.23 If accepted by the licensing authority, an application for review would result in a twenty-eight (28) day consultation period advertised at the premises and on the licensing authority website where any responsible authority or other person could submit a representation.

- 8.24 A licensing sub-committee would hold a hearing to assess the representations and the oral submissions of the licence holder before considering what, if any, action was appropriate. The options available to the sub-committee would be:
- i) to take no action;
 - ii) to modify the conditions of the premises licence (modify includes adding new conditions, altering or omitting existing conditions, or altering permitted timings of licensable activities);
 - iii) to exclude a licensable activity from the premises licence;
 - iv) to remove the designated premises supervisor from the premises licence;
 - v) to suspend the premises licence for a period not exceeding three months; or
 - vi) to revoke the premises licence.

Deregulation of regulated entertainment

- 8.25 Since 6 April 2015, regulated entertainment has been deregulated between the hours of 08:00hrs and 23:00hrs for audiences of 500 or less on premises licensed for the sale of alcohol.
- 8.26 Should the sub-committee be minded to grant the variation of outdoor opening hours, as the outdoor area forms part of the licensed premises, live and recorded music would not require a licence between the hours of 08:00hrs and 23:00hrs during hours where the premises licence allowed it to be open to the public and the sale of alcohol was authorised. This deregulation currently applies to the outdoor area up to the existing closing time of 22:00hrs therefore extending the outdoor opening hours would allow the provision of live and recorded music for a further hour up to 23:00hrs. There is no evidence to suggest that the licence holder is currently utilising this deregulation.
- 8.27 Any conditions relating to regulated entertainment (live and recorded music) during the period of deregulation would not have effect therefore cannot be imposed by the sub-committee.
- 8.28 Deregulation can be removed at a premises licence review whereby live and recorded music would then need to be authorised by the premises licence and any restrictions on timings or imposed conditions would apply.

9. APPENDICES

- 9.1 Appendix A Current premises licence
- 9.2 Appendix B Application
- 9.2 Appendix C Representations from other persons
