Officer Summary

Creative Chefs CIC provide fun cooking sessions for children. During the sessions children create a healthy recipe (main meal) to take home.

Each child will receive educational information on the importance of making healthy food choices and they will have the opportunity to try seasonal vegetables in the session. The programme invites children to taste, touch and smell the ingredients as the session progresses. This instils a sense of interest in the food they eat and mindfulness while eating. The children will have fun creating a main meal alongside their peers. Each child will receive a recipe booklet to take home with more family friendly recipes for them to try at home with their family. The children will learn skills they can take into adulthood encouraging them to make healthy food choices and reducing health inequalities within the local population.

The service does not finish with the delivery of sessions. They can support families if they have any questions on budget recipes for all the family.

The group have been delivering these sessions throughout North Herts through the Household Support Fund via the North Herts Council and have managed these sessions independently arranging them with schools and reached more than 550 “chefs”. Without exception they have had positive feedback with many requests to return. Using seasonal affordable ingredients is both environmentally and economically more sustainable.

These sessions will be for the children of Weston Way Nursery and St Marys Infants along with their families. They are having 3 intakes this year so 2 to 4 years. St Marys Infants - they were talking about delivering to year 1. Age 5 to 6 years. The 6-week programme will be timetabled once the funding comes through after September 2024.

Below is a breakdown of the funding they are applying for from the other Community Forums.

\*Funding will only be released on receipt and approval of all supporting documentation
