Officer Summary			
<p>Groundwork East takes practical action to create a fair and green future in which people, places, and nature thrive. They support local communities and businesses to build capacity and resilience to tackle hardship, achieve a just transition to net-zero and help nature recover in a way that reduces inequality and leads to better work and healthier, happier lives.</p> <p>They are applying for funding for their Grow It, Cook It, Share It course at Icknield Family centre. It is delivered in person, over 6 weeks, with 2-hour sessions each week. It teaches families how to grow their own fruit and vegetables through supervised gardening and how to prepare healthy meals through simple cooking sessions.</p> <p>By working together on the practical tasks, and sharing a meal together, families will have the chance to develop their confidence; build friendships and support networks that will last beyond the formal learning environment. By encouraging learners to participate in outdoor practical activities they are also supporting them to improve their physical health and mental wellbeing and that of their whole family.</p> <p>The course will take place at the Icknield Family Centre, where they have an established partnership and have delivered these courses for a number of years. Both their outdoor space and classroom setting is utilised. On average, they predict 20 beneficiaries per course.</p> <p>Courses are delivered by experienced tutors who have practical skills and experience of growing and cooking, as well as working with adult and pre-school children. Course delivery is underpinned by a tried-and-tested quality system. Funding for the course would enable individuals to attend the course free of charge.</p>			

*Funding will only be released on receipt and approval of all supporting documentation
