ECP31	Service Director - Resources	Off Street Car Parks resurfacing and enhancement	250	0	43	77	70	60	0	0	Condition surveys have identified the need for a proactive programme of resurfacing for the council's off street car parking. Resurfacing, re-lining and enhancing the lighting enables the car parks to be used safely, reducing insurance claims for trips and falls, and allows the continued enforcement of the relevant traffic regulation orders. A. Planned maintenance programme should enable reduction in reactive repairs. B. No programme of repairs will require additional revenue maintenance funds for responsive repairs, and loss of income as Traffic regulation orders will become unenforceable. UPDATE CBP 2026/27: Additional budget of £130k requested to extend scheme of works to 2029/30. £70k requested in 2028/29 for overlay and resurfacing works at The Warren car park in Royston and £60k requested in 2029/30 for the resurfacing of St Faiths Church Car Park on Woolgrove Road in Hitchin.
