- Gave an overview of the strategy. Full background details available in the information report which was published with the agenda [here](#).

- A hard copy is also available to view at the Council's Customer Service Centre at the main Council Offices on Gernon Road, Letchworth Garden City.
- Explained navigating the document online.

## Topics covered in the Q&A:

- Rural access - it was raised that walking and cycling routes into Hitchin from surrounding rural areas are currently very limited. DWr advised there is a commitment to addressing the issue, and awareness of its importance has been acknowledged.
- How is the Council going to engage with the whole of Hitchin – DWr outlined various ways they will approach this and happy to take suggestions. IA highlighted that they also want to engage with local groups like the Hitchin Forum. The Hitchin BID will help spread the word about the consultation with businesses.
- 2004 Hitchin Town Centre Strategy - KH expressed initial disappointment that the section on Hitchin is a lot shorter than the 2004 strategy. Noted the mixed progress since then. Churchgate remains unimproved, pavements need better maintenance, and evening bus services require improvement.
- Timeframe for getting it through and achieving it – aim is for the final document to be approved by North Herts Council in March. Then delivery depends on partners, funding, and feasibility. Will be actively monitoring delivery plan.
- Impact of Local Government Reorganisation – MOP raised concerns about achievability and risk of the strategy being lost after LGR. It was confirmed it's a statutory obligation as it will form part of the local plan. Whilst it's too early to say what the LGR impact will be, the intention is that it will continue to be taken forward and good to get it going now. IA highlighted that a Town Council would be something that could help with this.
- Where will funding be found for the extensive works proposed – IA recognises the need to leverage funding into Hertfordshire as part of the devolution settlement. Building new roads is a difficult issue.
- Links to Lavendar Farm – discussion around whether there's a way of creating a safe route which doesn't involve use of a car.
- Improvement of disability access needed and especially more disabled parking spaces.
