

26/01178/FP – Morrisons Superstore – CCTV pole and cameras, air/vac units

Please note the following updates:

1. The description of development states 'air/vac unit' when two units are proposed on the plans. Therefore, the description of development has been changed to 'air/vac units'.
2. The application has been re-consulted on due to changing the description of development. This consultation does not expire until 24th October, and the application cannot be determined until after this date. The reason why the application is being presented at the committee meeting on 1st October is due to the National Scheme of Delegation taking effect on 31st October, after which this application would not be able to be presented to Planning Control Committee for determination.
3. There is an error in the report. The application has been called into Planning Control Committee by the Director – Place, who has the authority to be able to do this, and not by the Development and Conservation Manager.
