

**LICENSING AND APPEALS SUB-COMMITTEE
6 DECEMBER 2019**

***PART 1 – PUBLIC DOCUMENT**

LICENSING ACT 2003

**APPLICATION BY KNEBORTH PARISH COUNCIL
FOR THE GRANT OF A PREMISES LICENCE IN RESPECT OF
THE STATION HOTEL, STATION APPROACH, KNEBORTH, HERTFORDSHIRE SG3 6AT**

REPORT OF THE LICENSING OFFICER

1. BACKGROUND

- 1.1 No premises licence under the Licensing Act 2003 (“the Act”) is currently in place for the premises.

2. APPLICATION

- 2.1 The application is for the grant of a premises licence under Section 17 of the Act.
- 2.2 The licensable activities and hours applied for, including operating schedule conditions, are as attached as **Appendix A**.

3. APPLICATION PROCESS

- 3.1 On Tuesday 15 October 2019 Knebworth Parish Council made an application to North Hertfordshire District Council for the grant of a premises licence for a public house known as The Station Hotel.
- 3.2 The prescribed consultation period was from 15 October 2019 until 12 November 2019.
- 3.2 The application was received electronically so copies were served by the Council to Hertfordshire Constabulary and the other responsible authorities.
- 3.3 A public notice was displayed on the premises for a period of not less than twenty-eight (28) consecutive days in accordance with the requirements of the Act.
- 3.4 A newspaper advertisement was placed in The Comet in accordance with the requirements of the Act.

4. REPRESENTATIONS

- 4.1 Hertfordshire Constabulary entered in to discussion with Knebworth Parish Council during the consultation period regarding appropriate licence conditions. Agreement was not made thus failing to satisfy the police concerns. Hertfordshire constabulary have requested conditions to be applied to the licence. The proposed conditions are attached as **Appendix B**.

- 4.2 No representation was received from NHDC Environmental Protection as conditions were agreed by the applicant to be added to the operating schedule during the consultation period. These conditions are included in **Appendix C** and now form part of the application.
- 4.3 No representations were received from any other responsible authority
- 4.4 No representations were received from any 'other persons'.
- 4.5 The Council's Scheme of Delegation requires the licensing officer to determine whether a representation is relevant as specified within the Act.
- 4.6 Where the licensing officer has determined that the representations are relevant, it is for the sub-committee to determine what weight to apportion to each representation.
- 4.7 The applicant has been served with a copy of all representations by way of this report.
- 4.8 The applicant and Hertfordshire Constabulary have been invited to attend the hearing to present their cases respectively. They have been advised that they may be legally represented and of the hearing procedure.

5. OBSERVATIONS

- 5.1 In determining this application, the sub-committee must have regard to the representations and take such steps as it considers appropriate for the promotion of the licensing objectives.
- 5.2 In making its decision, the sub-committee must act with a view to promoting the licensing objectives. It must also have regard to the licensing authority's Statement of Licensing Policy and National Guidance.
- 5.3 The sub-committee has the following options when issuing the Decision Notice:
- i) Grant the application as made
 - ii) Grant the application with conditions and/or amendments to the licensable activities and/or timings (conditions should only be added where they are appropriate to promote the licensing objectives).
 - iii) Refuse the application.

6. LICENSING POLICY CONSIDERATIONS

- 6.1 The following paragraphs from the Council's Statement of Licensing Policy 2016 may be relevant to this application. This section does not prevent the sub-committee from considering other paragraphs of the Statement of Licensing Policy where they deem it appropriate:

B6

Our vision is:

“To ensure that North Hertfordshire continues to offer a diverse range of well managed entertainment venues and community and cultural activities within a safe and enjoyable environment.”

B9

In making a balanced decision, the Council accepts that those living in town centre environments are likely to experience a degree of disturbance associated with a vibrant night-time economy but this must be managed in such a way to limit its impact beyond that which is reasonable. The Council will at all times consider the wider benefits to and impacts on the community as a whole and will take a proportionate view on the weight to apply to representations.

D1.4

When determining applications the Council will have regard to this Statement of Licensing Policy, relevant legislation and any Guidance issued by the Home Office pursuant to section 182 of the Act. If relevant representations are made, the Licensing and Appeals Committee or its Sub-Committee, will balance its decision against all other factors for and against the application.

D1.5

The Council expects applicants to address the licensing objectives in their operating schedule and have due regard to this Policy. To achieve this, the Council supports the principles set out in sections 8.33 – 8.36 of the Statutory Guidance which state:

8.33

In completing an operating schedule, applicants are expected to have regard to the statement of licensing policy for their area. They must also be aware of expectations of the licensing authority and the responsible authorities as to the steps that are appropriate for the promotion of the licensing objectives, and to demonstrate knowledge of their local area when describing the steps they propose to take to promote the licensing objectives. Licensing authorities and responsible authorities are expected to publish information about what is meant by the promotion of the licensing objectives and to ensure that applicants can readily access advice about these matters. However, applicants are also expected to undertake their own enquiries about the area in which the premises are situated to inform the content of the application.

8.34

Applicants are, in particular, expected to obtain sufficient information to enable them to demonstrate, when setting out the steps they propose to take to promote the licensing objectives that they understand:

- *the layout of the local area and physical environment including crime and disorder hotspots, proximity to local residential premises and proximity to areas where children may congregate;*
- *any risk posed to the local area by the applicants' proposed licensable activities; and*
- *any local initiatives (for example, local crime reduction initiatives or voluntary schemes including taxi-marshalling schemes, street pastors and other schemes) which may help to mitigate potential risks.*

8.35

Applicants are expected to include positive proposals in their application on how they will manage any potential risks. Where specific policies apply in the area (for example, a cumulative impact policy), applicants are also expected to demonstrate an understanding of how the policy impacts on their application; any measures they will take to mitigate the impact; and why they consider the application should be an exception to the policy.

8.36

It is expected that enquiries about the locality will assist applicants when determining the steps that are appropriate for the promotion of the licensing objectives. For example, premises with close proximity to residential premises should consider what effect this will have on their smoking, noise management and dispersal policies to ensure the promotion of the public nuisance objective. Applicants must consider all factors which may be relevant to the promotion of the licensing objectives, and where there are no known concerns, acknowledge this in their application.

D1.6

Applicants should be aware that if they fail to have due regard to this Policy it is more likely that the licensing authority or responsible authorities may deem it appropriate to make a representation. If representations are made as a result of the applicants' failure to address this Policy in its operating schedule, the Licensing and Appeals Sub-Committee may take this into consideration when determining the application.

D1.8

Whilst there is no requirement for applicants to consult with the responsible authorities prior to submitting an application the Council encourages pre-application dialogue to take place.

D2.1

Each licence application will be decided by reference to this Policy, the National Guidance issued by the Secretary of State, relevant legislation and to the individual circumstances of the particular application. The Council may depart from the Policy where the individual circumstances of any application merit such a decision in the interests of the promotion of the Licensing Objectives. Full reasons will be given for decisions taken by the Council when undertaking its licensing functions.

D2.5

The Council acknowledges that the licensing process can only seek to impose conditions that are within the direct control of the licence holder. The Council does not consider that the term 'direct control' can be generically defined and will consider its definition relative to the specific circumstances of each application. For example, licensed premises at the end of road leading to a car park may be able to control its patrons leaving the premises and using the car park. In general terms, to be considered to be under the 'direct control' of a licence holder, there will need to be a direct causal link between the problems or likely problems and the specific premises.

D2.8

The Council recognises that the exercise of its licensing function is only one of a number of means of securing the promotion of the licensing objectives. The exercise, by the Council, of its licensing function should not be seen as a panacea for all problems within the community. The Council will encourage co-operation between its licensing function, planning function and environmental health functions to ensure that any problems are addressed using the most appropriate means and that its licensing function does not duplicate any other statutory responsibilities.

D2.9

The Council will carry out its licensing functions in the promotion of the licensing objectives and, in addition, will support the stated aims of the Act which are as follows:

- (i) protecting the public and local residents from crime, anti-social behaviour and noise nuisance caused by irresponsible licensed premises;*
- (ii) giving the police and licensing authorities the powers they need to effectively manage and police the night-time economy and take action against those premises that are causing problems;*

- (iii) recognising the important role which pubs and other licensed premises play in our local communities by minimising the regulatory burden on business, encouraging innovation and supporting responsible premises;*
- (iv) providing a regulatory framework for alcohol which reflects the needs of local communities and empowers local authorities to make and enforce decisions about the most appropriate licensing strategies for their local area; and*
- (v) encouraging greater community involvement in licensing decisions and giving local residents the opportunity to have their say regarding licensing decisions that may affect them.*

D3.1

The Council recognises that fixed and artificially early closing times previously established under the Licensing Act 1964 were one of the main causes of rapid binge drinking prior to closing times and one of the causes of disorder and disturbance when large numbers of customers were required to leave premises simultaneously. These concentrations of people leaving can result in friction at places such as late night food outlets, taxi ranks and other sources of transport. The aim through the promotion of the licensing objectives will be to reduce the potential for concentrations and achieve a slower dispersal of people from licensed premises through flexible opening times where appropriate.

D3.2

The Council recognises that arbitrary restrictions would undermine the principle of flexibility and should be avoided; the licensing objectives will be the paramount consideration at all times. That said, if there is a proliferation of disorder and/or disturbance related to licensed premises in a specific location, for example a town centre, the Council may determine that a fixed terminal hour to mitigate the problems may be appropriate if no other control method has resolved the problem.

D3.3

Generally, when the Council's discretion is engaged, the presumption will be to grant the hours requested unless there are representations raised by responsible authorities and/or other persons that demonstrate an adverse effect or likely effect on the licensing objectives.

D3.4

The Council also recognises that licensing hours should not inhibit the development of a thriving and safe evening and night time economy, which is important for local investment, employment and tourism. The Council will not seek to restrict the trading hours of any particular premises unless this is necessary to promote one or more of the licensing objectives.

D6.2

The Council recognises that each application must be considered on its own merits and any conditions attached to licences and certificates must be tailored to the individual style and characteristics of the premises and activities concerned. This is essential to avoid the imposition of disproportionate and overly burdensome conditions on premises. A standardised approach to imposing conditions must be avoided and conditions will only be lawful where they are deemed appropriate to promote the licensing objectives in response to relevant representations.

D6.3

Conditions will only be imposed when they are appropriate for the promotion of the licensing objectives and will focus upon matters within the control of the individual licensee such as the premises, places or events being used for licensable activities or the surrounding areas of the premises, places or events. Conditions are likely to be focused towards the direct impact of those activities on persons living in, working in or visiting areas affected by, or likely to be affected by, those activities.

D6.6

The Council interprets Section L of the application form, "Hours premises are open to the public", as an integral part of the operating schedule. In assessing an application, responsible authorities and other persons are likely to read those hours as though they were part of the operating schedule and tailor their representations based on that interpretation. These hours, therefore, form conditions of the licence operating schedule and restrict the hours during which members of the public can be on the licensed premises at the conclusion of trading irrespective of whether licensable activities are taking place. Applicants are advised to consider any necessary 'drinking-up time' or wind-down period at the end of normal licensable activities when completing this section of the application.

D6.7

The Council strongly believes that a carefully considered operating schedule that fully considers the impact of the proposed activities in relation to the promotion of the licensing objectives, having regard to this Policy and the Guidance, is less likely to result in the imposition of conditions by a Licensing Sub-Committee following representations.

D6.8

It is the Council's view that the imposition of conditions should be restricted to those that are proportionate in addressing any concerns in relation to the promotion of the licensing objectives. Conditions should not be used as a tool to attempt to mitigate every possible scenario; this will serve only to place undue burden on applicants and is not consistent with the general principles of the Guidance.

D6.9

Operating schedules and licence conditions should be drafted in such a way that it is clear to licence holders exactly what is required of them and these requirements should be concise and well-worded to assist the licence holder in managing their premises. The Council is strongly of the view that the imposition of a substantial list of conditions in order to grant an application calls into question the suitability of the applicant to hold a licence. Where a Licensing Sub-Committee determines that it is appropriate to impose a substantial list of conditions to the extent that they are effectively determining the day-to-day management of the premises, they will give serious consideration to refusing the application.

D8.2

Only appropriate, proportionate and reasonable licensing conditions will be imposed on licences so as not to discourage the promotion of entertainment. Conditions will relate to the minimum needed to ensure the promotion of the licensing objectives.

E3.9.3

Should disturbance from licensed premises become unreasonable, any review proceedings will seek to impose suitable control measures in the first instance. Should control measures prove ineffective or are deemed inappropriate then the restriction of licensable activity timings, removal of licensable activities, suspension or revocation of the licence will be seriously considered.

F4.1

In order to avoid duplication with other regulatory regimes the Council will not, as far as reasonably possible, attach conditions to licences unless they are appropriate for the promotion of the licensing objectives and inadequately covered by other legislation. Ordinarily, conditions will be considered unnecessary if they are already adequately covered by other legislation.

F4.2

Notwithstanding the above, it is the responsibility of the applicants to ensure that they have all necessary consents, whether statutory or otherwise, and it should not be assumed that an authorisation under the Licensing Act 2003 removes this responsibility.

F8.1

The Council acknowledges that conditions cannot be imposed on an authorisation where it would be either impracticable or impossible for the licence holder to comply with such conditions when customers have left the premises and are beyond the control of the licence holder.

F8.2

That said, if behaviour of customers beyond the control of the licence holder can be causally linked to a specific premises and it is causing crime and disorder or a nuisance it is wrong to assume that the Act cannot address this; section 4 of the Act gives the Council a positive duty to deal with it proportionately. Whilst conditions would be inappropriate in these scenarios, the Council is strongly of the view that activities and/or operating times of an authorisation should be restricted, or an authorisation refused or revoked, where appropriate for the promotion of the licensing objectives.

O1.1

The Council accepts that it can only consider matters in relation to the four licensing objectives when determining licensing applications, however as a public body it also has a statutory duty to consider the following legislative requirements:

- (i) Crime and Disorder Act 1998
Local authorities are required to have due regard to the crime and disorder implications of any decision it makes.*
- (ii) Human Rights Act 1998
Local authorities are required to implement the Act in a manner consistent with the Human Rights Act 1998 by giving due consideration to the European Convention on Human Rights and Fundamental Freedoms.*
- (iii) Equality Act 2010
Local authorities are required to implement the Act in a manner consistent with its responsibilities to consider the equality implications of any decision it makes.*

O2.2

Any licence/certificate is issued without prejudice to any other consent, licence, approval or other authorisation required by other functions or responsibilities of the Council or any other statutory body. The possession of a licence/certificate under the Act does not supersede or replace any other statutory provision.

7. RELEVANT EXTRACTS OF STATUTORY GUIDANCE

- 7.1** The following paragraphs from the Guidance issued by the Home Office under section 182 of the Licensing Act 2003 (April 2018 version) may be relevant to this application. This section does not prevent the sub-committee from considering other paragraphs of the Guidance where they deem it appropriate and the determination should be based upon consideration of the full document:

1.3

The licensing objectives are:

- The prevention of crime and disorder;*
- Public safety;*
- The prevention of public nuisance; and*
- The protection of children from harm.*

1.4

Each objective is of equal importance. There are no other statutory licensing objectives, so that the promotion of the four objectives is a paramount consideration at all times.

1.5

However, the legislation also supports a number of other key aims and purposes. These are vitally important and should be principal aims for everyone involved in licensing work.

They include:

- protecting the public and local residents from crime, anti-social behaviour and noise nuisance caused by irresponsible licensed premises;*
- giving the police and licensing authorities the powers they need to effectively manage and police the night-time economy and take action against those premises that are causing problems;*
- recognising the important role which pubs and other licensed premises play in our local communities by minimising the regulatory burden on business, encouraging innovation and supporting responsible premises;*
- providing a regulatory framework for alcohol which reflects the needs of local communities and empowers local authorities to make and enforce decisions about the most appropriate licensing strategies for their local area; and*
- encouraging greater community involvement in licensing decisions and giving local residents the opportunity to have their say regarding licensing decisions that may affect them.*

1.16

Conditions on a premises licence or club premises certificate are important in setting the parameters within which premises can lawfully operate. The use of wording such as “must”, “shall” and “will” is encouraged. Licence conditions:

- must be appropriate for the promotion of the licensing objectives;*
- must be precise and enforceable;*
- must be unambiguous and clear in what they intend to achieve;*
- should not duplicate other statutory requirements or other duties or responsibilities placed on the employer by other legislation;*
- must be tailored to the individual type, location and characteristics of the premises and events concerned;*
- should not be standardised and may be unlawful when it cannot be demonstrated that they are appropriate for the promotion of the licensing objectives in an individual case;*
- should not replicate offences set out in the 2003 Act or other legislation;*
- should be proportionate, justifiable and be capable of being met, (for example, whilst beer glasses may be available in toughened glass, wine glasses may not);*
- cannot seek to manage the behaviour of customers once they are beyond the direct management of the licence holder and their staff, but may impact on the behaviour of customers in the immediate vicinity of the premises or as they enter or leave; and*
- should be written in a prescriptive format.*

1.17

The licensing authority should only impose conditions on a premises licence or club premises certificate which are appropriate and proportionate for the promotion of the licensing objectives. If other existing law already places certain statutory responsibilities on an employer at or operator of a premises, it cannot be appropriate to impose the same or similar duties on the premises licence holder, or club. It is only where additional and supplementary measures are appropriate to promote the licensing objectives that there will be a requirement for appropriate, proportionate conditions to be attached.

2.1

Licensing authorities should look to the police as the main source of advice on crime and disorder. They should also seek to involve the local Community Safety Partnership (CSP).

8.41

In completing an operating schedule, applicants are expected to have regard to the statement of licensing policy for their area. They must also be aware of the expectations of the licensing authority and the responsible authorities as to the steps that are appropriate for the promotion of the licensing objectives, and to demonstrate knowledge of their local area when describing the steps they propose to take to promote the licensing objectives. Licensing authorities and responsible authorities are expected to publish information about what is meant by the promotion of the licensing objectives and to ensure that applicants can readily access advice about these matters. However, applicants are also expected to undertake their own enquiries about the area in which the premises are situated to inform the content of the application.

8.42

Applicants are, in particular, expected to obtain sufficient information to enable them to demonstrate, when setting out the steps they propose to take to promote the licensing objectives, that they understand:

- the layout of the local area and physical environment including crime and disorder hotspots, proximity to residential premises and proximity to areas where children may congregate;*
- any risk posed to the local area by the applicants' proposed licensable activities; and*
- any local initiatives (for example, local crime reduction initiatives or voluntary schemes including local taxi-marshalling schemes, street pastors and other schemes) which may help to mitigate potential risks.*

8.44

It is expected that enquiries about the locality will assist applicants when determining the steps that are appropriate for the promotion of the licensing objectives. For example, premises with close proximity to residential premises should consider what effect this will have on their smoking, noise management and dispersal policies to ensure the promotion of the public nuisance objective. Applicants must consider all factors which may be relevant to the promotion of the licensing objectives, and where there are no known concerns, acknowledge this in their application.

8.47

Applicants are expected to provide licensing authorities with sufficient information in this section to determine the extent to which their proposed steps are appropriate to promote the licensing objectives in the local area. Applications must not be based on providing a set of standard conditions to promote the licensing objectives and applicants are expected to make it clear why the steps they are proposing are appropriate for the premises.

9.12

Each responsible authority will be an expert in their respective field, and in some cases it is likely that a particular responsible authority will be the licensing authority's main source of advice in relation to a particular licensing objective. For example, the police have a key role in managing the night-time economy and should have good working relationships with those operating in their local area⁵. The police should usually therefore be the licensing authority's main source of advice on matters relating to the promotion of the crime and disorder licensing objective. However, any responsible authority under the 2003 Act may make representations with regard to any of the licensing objectives if they have evidence to support such representations. Licensing authorities must therefore consider all relevant representations from responsible authorities carefully, even where the reason for a particular responsible authority's interest or expertise in the promotion of a particular objective may not be immediately apparent. However, it remains incumbent on all responsible authorities to ensure that their representations can withstand the scrutiny to which they would be subject at a hearing.

9.42

Licensing authorities are best placed to determine what actions are appropriate for the promotion of the licensing objectives in their areas. All licensing determinations should be considered on a case-by-case basis. They should take into account any representations or objections that have been received from responsible authorities or other persons, and representations made by the applicant or premises user as the case may be.

9.43

The authority's determination should be evidence-based, justified as being appropriate for the promotion of the licensing objectives and proportionate to what it is intended to achieve.

9.44

Determination of whether an action or step is appropriate for the promotion of the licensing objectives requires an assessment of what action or step would be suitable to achieve that end. While this does not therefore require a licensing authority to decide that no lesser step will achieve the aim, the authority should aim to consider the potential burden that the condition would impose on the premises licence holder (such as the financial burden due to restrictions on licensable activities) as well as the potential benefit in terms of the promotion of the licensing objectives. However, it is imperative that the authority ensures that the factors which form the basis of its determination are limited to consideration of the promotion of the objectives and nothing outside those parameters. As with the consideration of licence variations, the licensing authority should consider wider issues such as other conditions already in place to mitigate potential negative impact on the promotion of the licensing objectives and the track record of the business. Further advice on determining what is appropriate when imposing conditions on a licence or certificate is provided in Chapter 10. The licensing authority is expected to come to its determination based on an assessment of the evidence on both the risks and benefits either for or against making the determination.

10.8

The licensing authority may not impose any conditions unless its discretion has been exercised following receipt of relevant representations and it is satisfied as a result of a hearing (unless all parties agree a hearing is not necessary) that it is appropriate to impose conditions to promote one or more of the four licensing objectives. In order to promote the crime prevention licensing objective conditions may be included that are aimed at preventing illegal working in licensed premises. This provision also applies to minor variations.

10.9

It is possible that in some cases no additional conditions will be appropriate to promote the licensing objectives.

10.10

The 2003 Act requires that licensing conditions should be tailored to the size, type, location and characteristics and activities taking place at the premises concerned. Conditions should be determined on a case-by-case basis and standardised conditions which ignore these individual aspects should be avoided. For example, conditions should not be used to implement a general policy in a given area such as the use of CCTV, polycarbonate drinking vessels or identity scanners where they would not be appropriate to the specific premises. Licensing authorities and other responsible authorities should be alive to the indirect costs that can arise because of conditions. These could be a deterrent to holding events that are valuable to the community or for the funding of good and important causes. Licensing authorities should therefore ensure that any conditions they impose are only those which are appropriate for the promotion of the licensing objectives.

8. LICENSING OFFICER COMMENTS

- 8.1 The comments within this section of the report are provided by the licensing officer to assist the sub-committee with the interpretation of the Act, the Guidance and existing case law. It is for the sub-committee to determine what weight they attach to this advice.

Definition of 'appropriate'

- 8.2 Statutory Guidance requires licensing sub-committees to ensure that their decisions are based on measures that are 'appropriate' for the promotion of the licensing objectives.
- 8.3 The Guidance explains 'appropriate' as:

9.43

The authority's determination should be evidence-based, justified as being appropriate for the promotion of the licensing objectives and proportionate to what it is intended to achieve.

9.44

Determination of whether an action or step is appropriate for the promotion of the licensing objectives requires an assessment of what action or step would be suitable to achieve that end. While this does not therefore require a licensing authority to decide that no lesser step will achieve the aim, the authority should aim to consider the potential burden that the condition would impose on the premises licence holder (such as the financial burden due to restrictions on licensable activities) as well as the potential benefit in terms of the promotion of the licensing objectives. However, it is imperative that the authority ensures that the factors which form the basis of its determination are limited to consideration of the promotion of the objectives and nothing outside those parameters. As with the consideration of licence variations, the licensing authority should consider wider issues such as other conditions already in place to mitigate potential negative impact on the promotion of the licensing objectives and the track record of the business. Further advice on determining what is appropriate when imposing conditions on a licence or certificate is provided in Chapter 10. The licensing authority is expected to come to its determination based on an assessment of the evidence on both the risks and benefits either for or against making the determination.

- 8.4 It is anticipated that, in due course, case law will provide clarity on the meaning of 'appropriate' as referred to in paragraphs 9.43 and 9.44 of the Guidance. The sub-committee is therefore advised to give 'appropriate' its ordinary meaning, as expanded upon by paragraph 9.43 of the Guidance, subject to the over-riding requirement on all local authority decisions of reasonableness.
- 8.5 This approach, of allowing the courts to provide clarity, is reflected in the following paragraphs of the Guidance:

1.9

Section 4 of the 2003 Act provides that, in carrying out its functions, a licensing authority must 'have regard to' guidance issued by the Secretary of State under section 182. This Guidance is therefore binding on all licensing authorities to that extent. However, this Guidance cannot anticipate every possible scenario or set of circumstances that may arise and, as long as licensing authorities have properly understood this Guidance, they may depart from it if they have good reason to do so and can provide full reasons. Departure from this Guidance could give rise to an appeal or judicial review, and the reasons given will then be a key consideration for the courts when considering the lawfulness and merits of any decision taken.

1.10

Nothing in this Guidance should be taken as indicating that any requirement of licensing law or any other law may be overridden (including the obligations placed on any public authorities under human rights legislation). This Guidance does not in any way replace the statutory provisions of the 2003 Act or add to its scope and licensing authorities should note that interpretation of the 2003 Act is a matter for the courts. Licensing authorities and others using this Guidance must take their own professional and legal advice about its implementation.

- 8.6 The sub-Committee should also be aware that their decision must be proportionate to the evidence received in respect of the application and representation. Proportionality is a key factor in assisting with the definition of 'appropriate'.

9. APPENDICES

- 9.1 Appendix A Application (Inc. plan, operating schedule and accompanying documents)
- 9.2 Appendix B Representation from Hertfordshire Constabulary
- 9.3 Appendix C Conditions agreed with NHDC Environmental Protection
